SCHOOL OF ENGINEERING AND TECHNOLOGY

An old proverb states “I listen, I forget. I see, I remember. I do, I understand.” Along the same lines, the academic curriculum at the School of Engineering and Technology (SOET) - CMR University, lays importance on ‘learning by doing’ through hands-on, activity-based exercises.

Creativity, Design Thinking and innovation modules are an integral part of the majority of academic programmes offered at CMRU. Faculty members are also trained in Design Thinking, and they apply these tools in classroom sessions for student-centric activities.
