

All in all, Teams can reduce the manpower and can completely replace the use of paper. It's yet another amazing tool that ensures effective education online.

3. Online Coding Websites such as Code Tantra

If you want your students/kids to learn how to code, make sure it's practical. Practicing code on paper is simply a waste of time. And it also kills the creative talent of the students. This is where the websites such as Data Camp, Code Tantra etc., come into play. Using such websites, your students can implement what they've learned instantly. Also, such websites feature several tricky problems that your students will enjoy.

The best part is that most websites are free and accessible from any device. It simply means none of your students will need particular hardware(laptop/PC) to code.

– **Learning Management Systems (LMS):** Platforms like Moodle, Blackboard, or Canvas facilitate course management, content delivery, online discussions, and assessment.

– **Virtual Learning Environments (VLE):** These encompass tools and technologies that support online learning, including multimedia content, interactive simulations, and virtual labs.

– **Research Tools:** Software such as SPSS, NVivo, or EndNote for statistical analysis, qualitative research, and managing bibliographies.

– **Simulations and Virtual Labs:** Tools that allow students to conduct experiments or simulations in virtual environments, especially useful for science, engineering, and medical disciplines.

– **Cloud Storage and File Sharing:** Services like Dropbox, Google Drive, or OneDrive for storing and sharing documents, presentations, and research data securely.

- ▢ **Security and Privacy Tools:** Ensuring data protection, secure communication channels, and compliance with regulations like GDPR or HIPAA where applicable.
- ▢ **Learning Analytics Tools:** Platforms that analyze student data to improve teaching methods, identify learning patterns, and provide personalized learning experiences.

CMR University Bangalore conducted the inauguration of the specialized "Centre for Innovation and Entrepreneurship" by renowned Management experts

The image shows a Zoom meeting interface. The main video feed displays Mr. Ketan Kapoor, a man with a beard and glasses, wearing a dark patterned shirt. At the top of the meeting window, there is a gallery view of other participants: tuilka.bansal, Pooja Manjunath, and others. A chat window is open on the right side of the screen, showing a conversation. The chat messages are as follows:

- Chat: in life science. now I'm pursuing MBA. it's getting difficult to understand Management Words. can U please give some tips to succeed in MBA field
- Prathamesh (Team MBA HRB) to Everyone 11:34 AM: as an entrepreneur how do u manage ur professional life and personal life like giving or spending time to your family -
- Shradh Ashok to Everyone: The last question I would like to ask you is how do you define success?
- Shrath (Team MBA HRB) to Everyone: Sir What are some challenges you think the next generation will face in business,

At the bottom of the Zoom window, there is a toolbar with icons for Mute, Video, Chat, Share Screen, Pause/Stop Recording, Breakout Rooms, Reactions, and a red 'Leave' button. The name 'Ketan Kapoor' is visible in the bottom left corner of the video feed.

Centre for Innovation & Entrepreneurship, CMRU School of Management, CMR University, as part of its "Learn from the Entrepreneur" series organised an interactive session with Mr Ketan Kapoor, Serial Entrepreneur and Founder - Mettl and Iyurved.
