22BSOD3.0	CHOICE BASED CREDIT SYSTEM AND ACADEMIC PROCESS
22BSOD3.1	<p>Odd & Even Semesters and Summer Term:</p> <p>The University follows the Choice Based Credit System and the Semester Scheme.</p> <p>There are two regular semesters and one additional term in an academic year. The semester that begins in August (August to November/ December) is known as the Odd Semester and the semester that begins in January (January to April/ May) is known as the Even Semester. During the summer vacation (i.e., May/ June to July), the Summer term is conducted to offer courses as per 22BSOD 3.2.</p>

22BSOD3.2	<p>Summer Term:</p> <p>The summer Term is an additional term conducted during an academic year. During summer term, a limited number of courses may be offered to enable the students to clear their backlog courses (F-RR) and/ or register for additional regular credit courses on audit basis, subject to strict adherence to the following guidelines:</p> <ol style="list-style-type: none"> 1) The Programme Council shall identify the courses to be offered along with the Course Instructor and recommend offering of such summer course(s) to the Dean/Director for consideration. ------------------	---

22BSOD3.3	<p>Curriculum:</p> <p>Every Programme has a prescribed course structure which, in general terms, is known as the Curriculum or the Courses of Study or the Scheme of Teaching and Evaluation. It prescribes all the courses/ laboratory/ other requirements for the degree and sets out the nominal sequence semester wise.</p> <p>It provides the syllabus and a list of text/ reference books (or other learning material sources) for each course. The Courses of Study details are updated every semester and are made available at the University website: http://cmru.edu.in</p> <p>Curriculum may also include SWAYAM and Massive Open Online Courses (MOOCs), offered by premier institutions. However, selection of such courses, if any, shall always be within prescribed guidelines of the relevant regulatory bodies.</p>
22BSOD3.4	<p>Course Credit Structure:</p> <ol style="list-style-type: none"> 1) A certain quantum of academic work, measured in terms of credits, is laid down as the requirement for completion of B.Des. degree in the different available specialization areas. A student earns credits by satisfactorily completing courses/other academic activities every semester. 2) The credits are distributed semester wise, as prescribed in the Scheme of Teaching and Evaluation for each of the programmes. The courses generally progress in sequences, building competencies as per the course learning outcomes. The positioning of a course indicates certain academic maturity on the part of the students. 3) Some courses do, in addition, specify passing in other courses, offered earlier in the programmes, as prerequisites for the course. 4) Students are required to follow the semester wise schedule of courses specified in Scheme of Teaching and Evaluation; they do, however, have freedom to follow alternative schedules to optimize their academic profile with additional courses, keeping the requirements for each course in mind. These additional courses may be from the prescribed scheme of teaching and evaluation or the courses offered under other programmes. Credits earned beyond the requirement for the award of the degree shall be treated as additional credits. For students with backlog courses, such rescheduling may even become necessary. Such departures from suggested schedules need to be done very carefully, and always with advice from the Faculty Adviser.

22BSOD3.5	<p>Courses:</p> <p>There will be following types of courses in a B. Arch. programme, namely:</p> <ol style="list-style-type: none"> 1) Professional Core (PC) Course: A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course. 2) Elective Course: Generally a course which can be chosen from a pool of courses and are of two types: a) Professional Elective (PE) which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope b) Open Elective (OE) which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill 3) Professional Ability Enhancement Courses (PAEC) which may be of two kinds: Professional Ability Enhancement Compulsory Courses (PAECC) and Skill Enhancement Courses (SEC) 4) Graduate Requirement (GR) Courses: These are courses on peripheral subjects in a programme, wherein completion of the course is considered mandatory to qualify for the award of the Degree. <p>The Courses of the B.Des. Programme are further classified as follows:</p> <p>1) Program Core (Credit Courses): Each academic programme is divided into Program Core or Common core courses which are further divided into mandatory and choice segments, with levels within them.</p> <p>The Program Core courses are broadly categorized into Foundation, Electives and Interdisciplinary.</p> <p>Foundation, Elective and interdisciplinary courses are discipline specific or allied to the program. Foundation courses are mandatory courses that are offered through the period of study of the program. Foundation courses are offered as fundamental, intermediate and advanced courses based on the prerequisite and difficulty level (100 Level / 200 Level / 300 Level etc.) of the course. Elective courses are a basket of courses from which the student gets to choose. Elective courses are either specialization courses or generic courses. Elective courses include mini projects, dissertations, internships and capstone projects. Students also have the option to choose from a set of interdisciplinary courses which are varied from their discipline and offered by other Schools of Studies of the University.</p> <p>Mandatory segments are those which lay a firm foundation of the knowledge required to complete a programme in the chosen domain, ending with a multifaceted assignment that serves as a culminating academic and intellectual experience for students, typically during their final year.</p>
------------------	---

Choice segments are those which a student could opt for to specialize further and / or to improve their interdisciplinary skills.

All segments carry credits, and the students are expected to earn the minimum number of credits in their coursework towards program core to earn the degree.

- 2) Common Core (Credit Courses):** Common Core Curriculum (CCC) courses are to be pursued by all students of the University regardless of their School of Study. It also encourages students to explore themselves and issues of fundamental importance to society through the Common Core Curriculum (CCC) courses. Students are expected to earn a certain specified number of credits in their coursework towards the Common Core Curriculum (CCC), during their academic programmes. While some courses are in workshop mode, which can be completed over a few days at a stretch, there are other courses which are offered for a specific number of hours per week throughout a semester.

Students take these courses planned for each academic programme, over multiple semesters. Credits range from 1 to 4, which are directly proportional to the number of hours required to complete a course. There are both 'mandatory' and 'choice' courses, with levels within them.

- 3) Common Core (Non-credit Courses / Engagement) - Graduate Requirement (GR):** Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:

- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.
- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.

4) Advanced Course: Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.

5) Prerequisite course: Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline
- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.
- **500 Level Courses:** These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline.

	<ul style="list-style-type: none"> • 600 Level Courses: These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level. • 700 Level Courses: The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.
22BSOD3.6	<p>Seminars:</p> <p>Some Programmes may prescribe Seminar as a requirement for the B.Des.. degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published technical literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
22BSOD3.7	<p>Projects:</p> <p>Programmes prescribe project as a requirement for the degree, wherein under the guidance of a Faculty member, a student is required to do some applied, creative and original work, based on the application of knowledge gained while undergoing various courses in the earlier years. The student is expected to do a survey of literature in the subject, work out a project plan and carry it out through experimentation and/ or modeling/ computation. Through the project work the student has to exhibit skills for analysis, design and synthesis. The details of the project requirements shall be as per the prescribed project guidelines.</p>
22BSOD3.8	<p>Audit Courses:</p> <p>A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course. The minimum requirement of attendance for an 'Audit Course' is 75%, with any additional requirements as set by the instructor such as submission of assignments and minimum performance in some of the in-semester</p>

	<p>evaluations. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA > 6.0 will be permitted to 'Audit' a course. A course can be audited provided the course is offered in the semester as a credit course for others, and there is no slot clash. Prior permission of the Instructor is required. 2) Audit courses would be restricted to a maximum of two (2) courses per student in the entire period of the programme. 3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. If the attendance and performance is not satisfactory, the instructor will award 'No Grade'. The grade 'AU' does not carry any grade points and therefore does not figure in SGPA/ CGPA calculations. 4) The course successfully completed in Audit mode will be reflected in the Semester Grade Card, Grade Certificate and the Transcript as Audit Course.
22BSOD3.9	<p>Registration:</p> <p>It is mandatory for every student to register for semester to attend various courses/ earn credits, using the prescribed Course Registration Form (CRF), till he completes his programme. The registration shall be completed on or before the prescribed last date for registration announced in the Academic Calendar.</p> <ol style="list-style-type: none"> 1) On joining the Programme, each student is assigned to a Faculty Adviser or an Advisory group. A student shall register for required courses each semester with prior permission of the Faculty Adviser. 2) The student can register for courses he intends to take during a given semester (including courses in summer term) on the basis of his plan for each Programme, as given in the Scheme of Teaching and Evaluation and as per the advice given by his Faculty Adviser. 3) The Faculty Adviser is expected to discuss with the student his academic performance during the previous semesters and then decide the number and nature of the courses for which the student can register during the semester within the framework of the Regulations. 4) The Faculty Adviser may advise the student to drop one or more courses/activities based on his academic performance. The Faculty Adviser may even advise a reduced load program over several semesters for students with poor performance at the end of the first semester/ year. 5) Students are not permitted to reregister for course(s), which they have already passed.

	<p>6) The registration is deemed to be complete only on approval by the Dean/Director.</p> <p>7) Without registration, any academic activity (course/ seminar etc.) undergone by a student will not be counted towards the requirements of his degree.</p> <p>8) Students having outstanding dues to the University or a hostel shall not be permitted to register.</p>
22BSOD3.10	<p>1) Procedure for Registration:</p> <p>The procedure involves the following steps:</p> <ol style="list-style-type: none"> The students shall decide on the courses to be registered during the ensuing semester as per the advice of their Faculty Adviser. They shall fill up the CRF online, stating the courses that they propose to complete during the ensuing semester as per the prescribed curriculum. They shall submit a printout of the completed CRF, duly attested by the Faculty Adviser to the Dean/Director through the departmental office within the date notified by the University for registration. Every student shall register between a minimum of 16 credits and a maximum of 30 credits in any semester. <p>2) Registration for the first two semesters:</p> <p>In each of the first two semesters, courses common to all branches are offered. A student is normally required to register for all the courses listed in the Scheme of Teaching and Evaluation for these two semesters.</p> <p>3) Registration for third and subsequent semesters:</p> <ol style="list-style-type: none"> From third semester onwards, registration is dependent on the academic standing of the student. A student with a low academic standing registers for the academic load specified by the Faculty Adviser. Students with average academic standing are advised not to attempt full load. Faculty Advisers after careful scrutiny will advise academic loads depending on previous performance. <p>4) Late Registration:</p> <p>Registration beyond the last date may be permitted only in special cases till the date specified in the Academic Calendar, on payment of a late registration fee.</p>

22BSOD3.11	<p>Registration for Graduate Requirement (GR) Courses:</p> <p>Graduate Requirement (GR) courses which are mandatory Non-credit courses are treated as complete or incomplete subject to the fulfillment of the minimum requirements of these courses and a minimum of 75% attendance. The award of degree is subject to successful completion of these courses. Formal registration for these courses shall be done along with other courses, at the beginning of the semesters.</p> <p>Not satisfying the minimum requirements of the course will result in a F-RR grade and the student has to re- register for the course when offered next. This requirement must be completed before the end of the Programme.</p>
22BSOD3.12	<p>Registration for Summer Term Courses:</p> <p>Students are permitted to register for courses during summer term under the regulations specified under 22BSOD 3.2, on payment of prescribed registration and course fees.</p>
22BSOD3.13	<p>Course Adjustment/Dropping of Courses:</p> <ol style="list-style-type: none"> 1) The Academic Calendar sets a date, within two weeks after the commencement of the semester, for Course Adjustment. On or before this date, a student is permitted to make adjustments in his academic load by addition or deletion of one or more courses, projects etc., provided the total credits do not exceed 30 or fall below 16, by such adjustments. Course adjustment has to be done in consultation with the Faculty Adviser. When the need for course adjustment through addition, substitution or dropping of course/s arises, the student without any backlog should do online course adjustment and students with backlog course/s should do it manually by filling a Course Adjustment Form. CAF has to be signed by both the student and the Faculty Adviser and the same is to be submitted to the Dean/Director. 2) If in the second or any of the subsequent semesters, a student finds his academic load too heavy, he may drop one or two courses out of the registered ones on advice from the Faculty Adviser, provided the minimum credit requirements is fulfilled. The last date for doing this is within 10 days after the end of the first test, or as specified in the Academic Calendar. 3) Course/s dropped by a student may be taken during a subsequent semester including the summer term, if offered. 4) The minimum number of students to be registered for an Elective/ course to be offered shall be not less than five, or as decided by the University.

22BSOD3.14	<p>Course substitution:</p> <p>In case a student obtains P grades or drops courses due to a valid reason or fails in a course, he may like to substitute courses in order to complete the course requirements within the stipulated duration. Following are the guidelines for course substitution:</p> <ol style="list-style-type: none"> 1) Course substitution is not permitted for Core Courses. The student has to reregister for the same courses and complete them. 2) An elective course may be substituted by another elective course from the same group.
22BSOD3.15	<p>Dropping of a Semester:</p> <ol style="list-style-type: none"> 1) A student may opt or be advised to drop an entire semester, with prior approval of Programme Council due to the following reasons: <ol style="list-style-type: none"> a) A student may seek a semester drop, due to severe personal health problem, unavoidable family commitments or other valid reasons beyond his control, on advice from the Faculty Adviser, prior to the commencement of the semester itself. b) During a registered semester, if a student finds that he is unable to cope up with the studies and/or does not have sufficient exposure to most of the courses registered in that semester, he can opt to drop the entire semester, on advice from the Faculty Adviser. 2) In all cases of severe health problems, medical certificate issued by a University recognized Medical Practitioner is essential. In all other cases, requests for dropping the semester should be accompanied by supporting documents as required. 3) Such break from studies is normally not permitted for a continuous period in excess of one year. 4) Not registering for any semester before the last date for registration without prior approval of the Dean/Director will result in automatic dropping of semester leading to temporary discontinuation of the programme. 5) The credits of the dropped semester shall be earned subsequently by registering to the courses specified in the Scheme of Teaching and Evaluation or equivalent courses when offered next.

22BSOD3.16	<p>1) Faculty Adviser:</p> <p>On joining the University, a student or a group of students' is/ are assigned to a Faculty Adviser from the concerned programme. Students are advised to consult the Faculty Adviser on any matter relating to their academic performance and the courses they may take in various semesters/ terms.</p> <p>2) Role of the Faculty Adviser:</p> <p>The Faculty Adviser guides the students to complete their courses of study for the required degree in a smooth and satisfactory manner. Approve the CRF by attesting same, before the prescribed last date. Advise students to overload/ drop one or more courses/ activities based on his academic performance. At the end of the first semester/ year, may even advise a reduced load programme for a poorly performing student. This reduced load programme may spread over several semesters subject to minimum load for the semester and completion of the degree programme within the prescribed maximum period by registering in summer terms. However, CGPA is calculated at the end of each semester from the second semester onwards and reflected in the grade certificate for indicating the progress of the student. 2) Each course in a program is associated with number of credits. Based on the number of credits for a course and obtained Grade Point for that course in a Semester, the GPA is calculated as given below: <ol style="list-style-type: none"> a) The SGPA is the ratio of sum of the product of the number of credits with the grade points secured by a student in all the courses taken by him to the sum of the number of credits of all the courses undergone by a student, i.e., $SGPA = \frac{\sum (C_i \times G_i)}{\sum C_i}$ <p>Where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course.</p>

	<p>b) The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.,</p> $CGPA = \sum (C_n \times S_n) / \sum C_n$ <p>Where S_n is the SGPA of the n^{th} semester and C_n is the total number of credits in that semester.</p> <p>Finally the SGPA and CGPA shall be rounded off to 2 decimal places.</p>

22BSOD 8.3	<p>1) Conversion of Grade and Percentage of Marks:</p> <p>Conversion formula for the conversion of CGPA into Percentage is:</p> <p>Percentage of marks scored, $P = [CGPA \text{ earned}] \times 10$</p> <p>2) Class Declaration:</p> <p>After the conversion of final CGPA into Percentage of Marks (PM), a graduating student is declared to have passed in:</p> <ol style="list-style-type: none"> a) First Class with Distinction (FCD): $PM \geq 75\%$ (In First Attempt) b) First Class (FC): $60\% \leq PM < 75\%$ c) Second Class (SC): $50\% \leq PM < 60\%$ d) Pass Class (P): $40\% \leq PM < 50\%$

The transcript will show only the overall CGPA based on all the courses taken by the student. Credits earned beyond the requirement for the award of the degree shall be shown as additional courses separately, indicating the grade earned by the student. Additional copies of the transcript can be obtained if needed, on request submitted along with payment of applicable fee.</p> <p>b) Students who have not yet completed the programme can obtain an interim Transcript at the end of any semester, if needed, on request and upon payment of applicable fee. 6. **Credit:** A unit by which the course work is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of lecture or two hours of tutorial/ practical work/ fieldwork per week.
7. **Credit Based Semester System (CBSS):** Under CBSS, the requirement for awarding a degree or diploma or certificate is prescribed in terms of number of credits to be earned by the students.
8. **Credit Point:** It is the product of grade point and number of credits for a course.
9. **Cumulative Grade Point Average (CGPA):** It is a measure of overall cumulative performance of a student over all semesters. The CGPA is the ratio of total credit points earned by a student in various courses in all semesters to the sum of the total credits of all courses in all the semesters. It is expressed up to two decimal places. However, the CGPA is invariably calculated from second semester onwards to facilitate students to know their academic progress.

10. **Dean:** Dean of the School of Engineering and Technology of the University.
11. **First Attempt:** If a student has completed all formalities and become eligible to attend examinations and has attended at least one head of passing, such attempt (first sitting) shall be considered as first attempt.
12. **Grade Point:** It is a numerical weightage allotted to each letter grade on a 10-point scale.
13. **Letter Grade:** An index of the performance of students in a said course. Grades are denoted by letters.
14. **Passing Standards:** A student is passing a Course only when getting GP greater than or equal to 04 (P Grade). A student is declared successful at the Semester-end only when getting SGPA equal to or greater than 4.00, with none of the Courses registered in a Semester having either F-RA or F-RR Grade.

17BSET3.0	CHOICE BASED CREDIT SYSTEM AND ACADEMIC PROCESS
17BSET3.1	<p>Odd & Even Semesters and Summer Term:</p> <p>The University follows the Choice Based Credit System and the Semester Scheme.</p> <p>There are two regular semesters and one additional term in an academic year. The semester that begins in August (August to November/ December) is known as the Odd Semester and the semester that begins in January (January to April/ May) is known as the Even Semester. During the summer vacation (i.e., May/ June to July), the Summer term is conducted to offer courses as per 17BSET 3.2.</p>
17BSET3.2	<p>Summer Term:</p> <p>The summer Term is an additional term conducted during an academic year. During summer term, a limited number of courses may be offered to enable the students to clear their backlog courses (F-RR) and/ or register for additional regular credit courses on audit basis, subject to strict adherence to the following guidelines:</p> <ol style="list-style-type: none"> 1) The Programme Council shall identify the courses to be offered along with the Course Instructor and recommend offering of such summer course(s) to the Dean for consideration. The identified faculty members shall offer the courses only on approval by the Dean. 2) The course is offered in the same manner as a regular semester course without compromising the course requirements in terms of knowledge delivery, course work, assessment and evaluation. The University shall notify the fee payable by the students for the summer term courses. 3) The duration of the course is six to eight weeks. The registration, examination, assessment and grading etc. are done in the same way as is done for regular semester courses. The total number of contact hours for the courses remain the same as that during the regular semesters, and therefore, the courses are run at an accelerated pace. The Academic Calendar specially made in this connection shall be strictly followed. 4) The dropping of a Summer Course is permitted within 7 days from the first lecture of the course. However, the registration fee paid for the course is not refundable. 5) Time slots will be assigned and notified by the Dean as done for the regular semester courses

	<p>7) A notified summer course can be withdrawn if the number of students registered for the course is less than five.</p> <p>8) A student can register up to a maximum of 12 credits or 3 courses in any summer term, depending on his academic standing.</p> <p>9) Courses offered in a summer term will be treated as equivalent to a regular semester courses for all accounting purposes.</p>
17BSET3.3	<p>Curriculum:</p> <p>Every Programme has a prescribed course structure which, in general terms, is known as the Curriculum or the Courses of Study or the Scheme of Teaching and Evaluation. It prescribes all the courses/ laboratory/ other requirements for the degree and sets out the nominal sequence semester wise.</p> <p>It provides the syllabus and a list of text/ reference books (or other learning material sources) for each course. The Courses of Study details are updated every semester and are made available at the University website: http://cmru.edu.in</p> <p>Curriculum may also include SWAYAM and Massive Open Online Courses (MOOCs), offered by premier institutions. However, selection of such courses, if any, shall always be within prescribed guidelines of the relevant regulatory bodies.</p>
17BSET3.4	<p>Course Credit Structure:</p> <p>1) A certain quantum of academic work, measured in terms of credits, is laid down as the requirement for completion of B. Tech degree in the different available specialization areas. A student earns credits by satisfactorily completing courses/other academic activities every semester.</p> <p>2) The credits are distributed semester wise, as prescribed in the Scheme of Teaching and Evaluation for each of the programmes. The courses generally progress in sequences, building competencies as per the course learning outcomes. The positioning of a course indicates certain academic maturity on the part of the students.</p>

	<p>3) Some courses do, in addition, specify passing in other courses, offered earlier in the programmes, as prerequisites for the course.</p> <p>4) Students are required to follow the semester wise schedule of courses specified in Scheme of Teaching and Evaluation; they do, however, have freedom to follow alternative schedules to optimize their academic profile with additional courses, keeping the requirements for each course in mind. These additional courses may be from the prescribed scheme of teaching and evaluation or the courses offered under other programmes. Credits earned beyond the requirement for the award of the degree shall be treated as additional credits. For students with backlog courses, such rescheduling may even become necessary. Such departures from suggested schedules need to be done very carefully, and always with advice from the Faculty Adviser.</p>
17BSET3.5	<p>Courses:</p> <p>There will be following types of courses in a B. Tech. programme, namely:</p> <ol style="list-style-type: none"> 1) Humanities and Social Sciences (HS), include Management, Skill enhancement and Economics. These courses will have 1 to 3 credits per course. 2) Basic Sciences (BS) include Mathematics, Physics and Chemistry. These courses will have 2 to 4 credits per course. 3) Engineering Sciences (ES) are engineering foundation courses and include Workshop, Drawing, Basics of Electrical/ Civil/ Mechanical/ Computer Engineering, Materials, and Instrumentation. These courses are common across all disciplines and will have 2 to 4 credits per course. 4) Professional Core Courses (PC): These are the courses to be compulsorily studied by a student as a core requirement to complete the requirements of a program in a said discipline of study. These courses will have 2 to 4 credits per course. 5) Professional Elective Courses (PE): These are the courses from which a student can choose and study as part of the requirement to complete the program in a said discipline of study. These courses will have 2 to 4 credits per course. 6) Open Elective Courses (OE): These courses are supportive to the discipline/ providing extended scope/enabling an exposure to some other discipline/ domain and they are chosen from the pool of courses. These courses may have 2 to 4 credits per course. 7) Skill development Courses (SD): These are to nurture student proficiency skills. These courses are offered to achieve the programme outcomes not specifically covered by the other courses and may have 1 to 3 credits per course.

8) Graduate Requirement (GR) Courses: These are courses on peripheral subjects in a programme, wherein completion of the course is considered mandatory to qualify for the award of the Degree.

9) Project work, Mini Project work and Internship and Seminar are also considered as courses in the B.Tech.. programme.

The Courses of the B.Tech. Programme are further classified as follows:

1) Program Core (Credit Courses): Each academic programme is divided into Program Core or Common core courses which are further divided into mandatory and choice segments, with levels within them.

The Program Core courses are broadly categorized into Foundation, Electives and Interdisciplinary.

Foundation, Elective and interdisciplinary courses are discipline specific or allied to the program. Foundation courses are mandatory courses that are offered through the period of study of the program. Foundation courses are offered as fundamental, intermediate and advanced courses based on the prerequisite and difficulty level (100 Level / 200 Level / 300 Level etc.) of the course. Elective courses are a basket of courses from which the student gets to choose. Elective courses are either specialization courses or generic courses. Elective courses include mini projects, dissertations, internships and capstone projects. Students also have the option to choose from a set of interdisciplinary courses which are varied from their discipline and offered by other Schools of Studies of the University.

Mandatory segments are those which lay a firm foundation of the knowledge required to complete a programme in the chosen domain, ending with a multifaceted assignment that serves as a culminating academic and intellectual experience for students, typically during their final year.

Choice segments are those which a student could opt for to specialize further and / or to improve their interdisciplinary skills.

All segments carry credits, and the students are expected to earn the minimum number of credits in their coursework towards program core to earn the degree.

2) Common Core (Credit Courses): Common Core Curriculum (CCC) courses are to be pursued by all students of the University regardless of their School of Study. It also encourages students to explore themselves and issues of fundamental importance to society through the Common Core Curriculum (CCC) courses. Students are expected to earn a certain specified number of credits in their

coursework towards the Common Core Curriculum (CCC), during their academic programmes. While some courses are in workshop mode, which can be completed over a few days at a stretch, there are other courses which are offered for a specific number of hours per week throughout a semester.

Students take these courses planned for each academic programme, over multiple semesters. Credits range from 1 to 4, which are directly proportional to the number of hours required to complete a course. There are both 'mandatory' and 'choice' courses, with levels within them.

3) Common Core (Non-credit Courses / Engagement) - Graduate Requirement

(GR): Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:

- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.
- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.

4) Advanced Course: Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.

5) Prerequisite course: Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline
- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.
- **500 Level Courses:** These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline.
- **600 Level Courses:** These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level.
- **700 Level Courses:** The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.

17BSET3.6	<p>Seminars:</p> <p>Some Programmes may prescribe Seminar as a requirement for the B.Tech.. degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published technical literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
17BSET3.7	<p>Projects:</p> <p>Programmes prescribe project as a requirement for the degree, wherein under the guidance of a Faculty member, a student is required to do some applied, creative and original work, based on the application of knowledge gained while undergoing various courses in the earlier years. The student is expected to do a survey of literature in the subject, work out a project plan and carry it out through experimentation and/ or modeling/ computation. Through the project work the student has to exhibit skills for analysis, design and synthesis. These projects may be offered as a single unit of 16 credits or two modules of 4 and 12 credits in two successive semesters. Departments may also prescribe a minimum performance in the first module for being eligible for second module. The details of the project requirements shall be as per the prescribed project guidelines.</p>
17BSET3.8	<p>Audit Courses:</p> <p>A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course. The minimum requirement of attendance for an 'Audit Course' is 75%, with any additional requirements as set by the instructor such as submission of assignments and minimum performance in some of the in-semester evaluations. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA > 6.0 will be permitted to 'Audit' a course. A course can be audited provided the course is offered in the semester as a credit course for others, and there is no slot clash. Prior permission of the Instructor is required. 2) Audit courses would be restricted to a maximum of two (2) courses per student in the entire period of the programme. 3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. If the attendance and performance is not satisfactory, the instructor will award 'No Grade'. The grade 'AU'

	<p>does not carry any grade points and therefore does not figure in SGPA/ CGPA calculations.</p> <p>4) The course successfully completed in Audit mode will be reflected in the Semester Grade Card, Grade Certificate and the Transcript as Audit Course.</p>
17BSET3.9	<p>Registration:</p> <p>It is mandatory for every student to register for semester to attend various courses/ earn credits, using the prescribed Course Registration Form (CRF), till he completes his programme. The registration shall be completed on or before the prescribed last date for registration announced in the Academic Calendar.</p> <ol style="list-style-type: none"> 1) On joining the Programme, each student is assigned to a Faculty Adviser or an Advisory group. A student shall register for required courses each semester with prior permission of the Faculty Adviser. 2) The student can register for courses he intends to take during a given semester (including courses in summer term) on the basis of his plan for each Programme, as given in the Scheme of Teaching and Evaluation and as per the advice given by his Faculty Adviser. 3) The Faculty Adviser is expected to discuss with the student his academic performance during the previous semesters and then decide the number and nature of the courses for which the student can register during the semester within the framework of the Regulations.
	<ol style="list-style-type: none"> 4) The Faculty Adviser may advise the student to drop one or more courses/activities based on his academic performance. The Faculty Adviser may even advise a reduced load program over several semesters for students with poor performance at the end of the first semester/ year. 5) Students are not permitted to reregister for course(s), which they have already passed. 6) The registration is deemed to be complete only on approval by the Dean. 7) Without registration, any academic activity (course/ seminar etc.) undergone by a student will not be counted towards the requirements of his degree. 8) Students having outstanding dues to the University or a hostel shall not be permitted to register.

17BSET3.10	<p>1) Procedure for Registration:</p> <p>The procedure involves the following steps:</p> <ol style="list-style-type: none"> The students shall decide on the courses to be registered during the ensuing semester as per the advice of their Faculty Adviser. They shall fill up the CRF online, stating the courses that they propose to complete during the ensuing semester as per the prescribed curriculum. They shall submit a printout of the completed CRF, duly attested by the Faculty Adviser to the Dean through the departmental office within the date notified by the University for registration. Every student shall register between a minimum of 16 credits and a maximum of 26 credits in any semester. <p>2) Registration for the first two semesters:</p> <p>In each of the first two semesters, courses common to all branches are offered. A student is normally required to register for all the courses listed in the Scheme of Teaching and Evaluation for these two semesters.</p> <p>3) Registration for third and subsequent semesters:</p> <ol style="list-style-type: none"> From third semester onwards, registration is dependent on the academic standing of the student. A student with a low academic standing registers for the academic load specified by the Faculty Adviser. In addition he may add one more courses (2-5 credits) towards additional learning or to clear backlog courses, without this being considered an overload. Students with average academic standing are advised not to attempt full load. Faculty Advisers after careful scrutiny will advise academic loads depending on previous performance. <p>4) Late Registration:</p> <p>Registration beyond the last date may be permitted only in special cases till the date specified in the Academic Calendar, on payment of a late registration fee.</p>
17BSET3.11	<p>Registration for Graduate Requirement (GR) Courses:</p> <p>Graduate Requirement (GR) courses which are mandatory Non-credit courses are treated as complete or incomplete subject to the fulfillment of the minimum requirements of these courses and a minimum of 75% attendance. The award of degree is subject to successful completion of these courses. Formal registration for these courses shall be done along with other courses, at the beginning of the semesters.</p> <p>Not satisfying the minimum requirements of the course will result in a F-RR grade and the student has to re- register for the course when offered next. This requirement must be completed before the end of the Programme.</p>

17BSET3.12	<p>Registration for Summer Term Courses:</p> <p>Students are permitted to register for courses during summer term under the regulations specified under 17BSET 3.2, on payment of prescribed registration and course fees.</p>
17BSET3.13	<p>Course Adjustment/Dropping of Courses:</p> <ol style="list-style-type: none"> 1) The Academic Calendar sets a date, within two weeks after the commencement of the semester, for Course Adjustment. On or before this date, a student is permitted to make adjustments in his academic load by addition or deletion of one or more courses, projects etc., provided the total credits do not exceed 26 or fall below 16, by such adjustments. Course adjustment has to be done in consultation with the Faculty Adviser. When the need for course adjustment through addition, substitution or dropping of course/s arises, the student without any backlog should do online course adjustment and students with backlog course/s should do it manually by filling a Course Adjustment Form. CAF has to be signed by both the student and the Faculty Adviser and the same is to be submitted to the Dean. 2) If in the second or any of the subsequent semesters, a student finds his academic load too heavy, he may drop one or two courses out of the registered ones on advice from the Faculty Adviser, provided the minimum credit requirements is fulfilled. The last date for doing this is within 10 days after the end of the first test, or as specified in the Academic Calendar. 3) Course/s dropped by a student may be taken during a subsequent semester including the summer term, if offered. 4) The minimum number of students to be registered for an Elective/ course to be offered shall be not less than five, or as decided by the University.
17BSET3.14	<p>Course substitution:</p> <p>In case a student obtains P grades or drops courses due to a valid reason or fails in a course, he may like to substitute courses in order to complete the course requirements within the stipulated duration. Following are the guidelines for course substitution:</p> <ol style="list-style-type: none"> 1) Course substitution is not permitted for Core Courses. The student has to reregister for the same courses and complete them. 2) An elective course may be substituted by another elective course from the same group.

17BSET3.15	<p>Dropping of a Semester:</p> <ol style="list-style-type: none"> 1) A student may opt or be advised to drop an entire semester, with prior approval of Programme Council due to the following reasons: <ol style="list-style-type: none"> a) A student may seek a semester drop, due to severe personal health problem, unavoidable family commitments or other valid reasons beyond his control, on advice from the Faculty Adviser, prior to the commencement of the semester itself. b) During a registered semester, if a student finds that he is unable to cope up with the studies and/or does not have sufficient exposure to most of the courses registered in that semester, he can opt to drop the entire semester, on advice from the Faculty Adviser. 2) In all cases of severe health problems, medical certificate issued by a University recognized Medical Practitioner is essential. In all other cases, requests for dropping the semester should be accompanied by supporting documents as required. 3) Such break from studies is normally not permitted for a continuous period in excess of one year. 4) Not registering for any semester before the last date for registration without prior approval of the Dean will result in automatic dropping of semester leading to temporary discontinuation of the programme. 5) The credits of the dropped semester shall be earned subsequently by registering to the courses specified in the Scheme of Teaching and Evaluation or equivalent courses when offered next.
17BSET3.16	<p>1) Faculty Adviser:</p> <p>On joining the University, a student or a group of students' is/ are assigned to a Faculty Adviser from the concerned programme. Students are advised to consult the Faculty Adviser on any matter relating to their academic performance and the courses they may take in various semesters/ terms.</p> <p>2) Role of the Faculty Adviser:</p> <p>The Faculty Adviser guides the students to complete their courses of study for the required degree in a smooth and satisfactory manner. For effective utilization of the opportunities for additional academic accomplishments, planning of the individual's academic progress needs careful consideration, and constant consultation with the Faculty Advisers is imperative. Thus, the role of the Faculty Adviser is of immense importance. The Faculty Adviser is the person whom the parents/ guardians should contact for performance related issues of their ward.</p>

	<p>The Faculty Advisor shall,</p> <ol style="list-style-type: none"> Guide the students about the rules and regulations governing the courses of study for a particular degree. Advise the students for registering courses as per prescribed curriculum or otherwise but within the scope of the rules and regulations prescribed by the University from time to time. For this purpose the Faculty Adviser has to discuss with the student his academic performance during the previous semester and then decide the number and nature of the courses for which he can register during the semester.
	<ol style="list-style-type: none"> Approve the CRF by attesting same, before the prescribed last date. Advise students to overload/ drop one or more courses/ activities based on his academic performance. At the end of the first semester/ year, may even advise a reduced load programme for a poorly performing student. This reduced load programme may spread over several semesters subject to minimum load for the semester and completion of the degree programme within the prescribed maximum period by registering in summer terms. Such reduced load programme is to be prepared by the Faculty Adviser in consultation with the Student and his parent and the Faculty Adviser has to recommend the same through the Programme Council to the Dean for consideration and approval before the commencement of the semester. Pay special attention to weak students and carefully monitor performance of students recommended for slow track option. Advise students for Course Adjustment/ Dropping of courses during the Semester within the stipulated time frame given in the Academic calendar. Advise students seeking semester drop either during the ongoing semester or before the commencement of the semester. Ensure strict compliance of rules and regulations laid down for this purpose. Recommend the cases to the Dean for consideration. Make revised plan of study for weak/bright students based on their semester wise performance. Suggest modalities for course/credit requirements for the students recommended for exchange programme. Provide guidance and liaison with the parents for their improved performance. Ensure that students are not permitted to re-register for courses, which they have already passed. Inform students that any academic activity (course/ Laboratory/ seminar/ project/ noncredit requirement etc.) undergone without proper registration will not be counted towards the requirements of his degree. Strictly warn students that if he fails to register during any semester without prior approval, his studentship is liable to be cancelled. Keep the students updated about the Academic Administration of CBCS system at the University.

However, CGPA is calculated at the end of each semester from the second semester onwards and reflected in the grade certificate for indicating the progress of the student.

	<p>2) Each course in a program is associated with number of credits. Based on the number of credits for a course and obtained Grade Point for that course in a Semester, the GPA is calculated as given below:</p> <p>a) The SGPA is the ratio of sum of the product of the number of credits with the grade points secured by a student in all the courses taken by him to the sum of the number of credits of all the courses undergone by a student, i.e.,</p> $SGPA = \sum (C_i \times G_i) / \sum C_i$ <p>Where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course.</p>
	<p>b) The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.,</p> $CGPA = \sum (C_n \times S_n) / \sum C_n$ <p>Where S_n is the SGPA of the n^{th} semester and C_n is the total number of credits in that semester.</p> <p>Finally the SGPA and CGPA shall be rounded off to 2 decimal places.</p>

17BSET 8.3	<p>1) Conversion of Grade and Percentage of Marks:</p> <p>Conversion formula for the conversion of CGPA into Percentage is:</p> <p>Percentage of marks scored, $P = [CGPA \text{ earned}] \times 10$</p> <p>2) Class Declaration:</p> <p>After the conversion of final CGPA into Percentage of Marks (PM), a graduating student is declared to have passed in:</p> <p>a) First Class with Distinction (FCD): $PM \geq 75\%$ (In First Attempt)</p> <p>b) First Class (FC): $60\% \leq PM < 75\%$</p> <p>c) Second Class (SC): $50\% \leq PM < 60\%$</p> <p>d) Pass Class (P): $40\% \leq PM < 50\%$</p>

17BSET8.4	<p>Grade Cards, Certificates and Transcripts:</p> <ol style="list-style-type: none"> 1) Grade Cards: At the end of each semester, a Grade Card shall be issued to all the registered students of that semester, indicating the Course code, Title, Number of credits, Letter grade awarded and Credits earned, for all the Courses as specified in the scheme of teaching and evaluation. This may have F-RA or F-RR grades awarded to the student. 2) Grade Certificate: On successful completion of all courses/earning credits, specified in a semester, the grade certificate is issued indicating the course details along with SGPA of that semester and also CGPA earned till that semester. 3) Transcripts: Transcript is the consolidated statement of the academic performance of a student for all the semesters since joining the programme and is generally given to a student on successful completion of the programme along with the degree certificate. <ol style="list-style-type: none"> a) For those students who have taken multiple attempts to clear a course, the transcript given on successful completion of the programme will only contain earned pass grade (O to P and AU); the courses cleared subsequently will however be shown in the respective semester with Month and Year in which the student has finally cleared the course. The transcript will show only the overall CGPA based on all the courses taken by the student. Credits earned beyond the requirement for the award of the degree shall be shown as additional courses separately, indicating the grade earned by the student. Additional copies of the transcript can be obtained if needed, on request submitted along with payment of applicable fee. b) Students who have not yet completed the programme can obtain an interim Transcript at the end of any semester, if needed, on request and upon payment of applicable fee. However, CGPA is calculated at the end of each semester from the second semester onwards and reflected in the grade certificate for indicating the progress of the student.

	<p>2) Each course in a programme is associated with number of credits (C). Based on the number of Credits for a course and obtained Grade Point (GP) for that course in a Semester, the GPA is calculated as given below:</p> <p>a) The SGPA is the ratio of sum of the product of the number of credits with the grade points secured by a student in all the courses taken by him and the sum of the number of credits of all the courses undergone by a student i.e., $SGPA = \sum (C_i \times G_i) / \sum C_i$</p> <p>Where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course.</p> <p>b) The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e., $CGPA = \sum (C_n \times S_n) / \sum C_n$</p> <p>Where S_n is the SGPA of the n^{th} semester and C_n is the total number of credits in that semester.</p> <p>Finally the SGPA and CGPA shall be rounded off to 2 decimal places.</p>

19PGMT 8.3	<p>a) Conversion of Grade and Percentage of Marks:</p> <p>Conversion formula for the conversion of CGPA into Percentage is: Percentage of marks scored, $P = [CGPA \text{ earned}] \times 10$</p> <p>b) Class Declaration:</p> <p>After the conversion of final CGPA into Percentage of Marks (PM), a graduating student is declared to have passed in</p> <p>a) First Class with Distinction (FCD): $PM \geq 75\%$ (In First Attempt)</p> <p>b) First Class (FC): $60\% \leq PM < 75\%$</p> <p>c) Second Class (SC): $50\% \leq PM < 60\%$</p>

This may have F -RA or F - RR grades awarded to the student. 2) Grade Certificate: On successful completion of all courses/earning credits, specified in a semester, the grade certificate is issued indicating the course details along with SGPA of that semester and also CGPA earned till that semester. 3) Transcripts: Transcript is the consolidated statement of the Academic Performance of a student for all the semesters since joining the programme and is given to a student on successful completion of the programme along with the degree certificate. <ol style="list-style-type: none"> a) For those students who have taken multiple attempts to clear a course, the transcript given on successful completion of the programme will only contain earned pass grade (O to P and AU); the course will however be shown in the semester (Month and Year) in which the student has finally cleared the course. The transcript will show only the overall CGPA based on all the courses taken by the student. Additional courses will be shown separately, indicating the grade earned by the student. Additional copies of the transcript can be obtained if needed, on request and upon payment of applicable fee. b) Students who have not yet completed the programme can obtain an Interim Transcript, if needed, on request and upon payment of applicable fee. Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:

- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.
- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.

4) Advanced Course: Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.

5) Prerequisite course: Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline

- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.
- **500 Level Courses:** These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline.
- **600 Level Courses:** These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level.
- **700 Level Courses:** The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.

17UGLH 3.6	<p>Seminars: Some Programmes may prescribe Seminar as a requirement for the degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published legal literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
17UGLH 3.7	<p>Internship:</p> <ol style="list-style-type: none"> 1. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA > 6.0 will be permitted to 'Audit' a course. 	<p>3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. 17UGLH 6.3	<p>Passing a Course:</p> <p>For pass in a course, the student shall secure a minimum of 40% of marks prescribed for that course in CIE and 40 % in SEE or viva voce examinations. However, aggregate marks combining both CIE and SEE or viva voce should not be less than 40% under any circumstances. Based on the number of Credits for a course and obtained Grade Point (GP) for that course in a Semester, the GPA is calculated as given below:</p> <p>a) The SGPA is the ratio of sum of the product of the number of credits with the grade points secured by a student in all the courses taken by him and the sum of the number of credits of all the courses undergone by a student, i.e.,</p> $SGPA = \frac{\sum (C_i \times G_i)}{\sum C_i}$ <p>Where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course.</p>

	<p>b) The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.,</p> $CGPA = \sum (C_n \times S_n) / \sum C_n$ <p>Where S_n is the SGPA of the n^{th} semester and C_n is the total number of credits in that semester.</p> <p>Finally the SGPA and CGPA shall be rounded off to 2 decimal places.</p>

-------------------	--

The Courses of the UG Programmes are further classified as follows:

1) Program Core (Credit Courses): Each academic programme is divided into Program Core or Common core courses which are further divided into mandatory and choice segments, with levels within them.

The Program Core courses are broadly categorized into Foundation, Electives and Interdisciplinary.

Foundation, Elective and interdisciplinary courses are discipline specific or allied to the program. Foundation courses are mandatory courses that are offered through the period of study of the program. Foundation courses are offered as fundamental, intermediate and advanced courses based on the prerequisite and difficulty level (100 Level / 200 Level / 300 Level etc.) of the course. Elective courses are a basket of courses from which the student gets to choose. Elective courses are either specialization courses or generic courses. Elective courses include mini projects, dissertations, internships and capstone projects. Students also have the option to choose from a set of interdisciplinary courses which are varied from their discipline and offered by other Schools of Studies of the University.

Mandatory segments are those which lay a firm foundation of the knowledge required to complete a programme in the chosen domain, ending with a multifaceted assignment that serves as a culminating academic and intellectual experience for students, typically during their final year.

Choice segments are those which a student could opt for to specialize further and / or to improve their interdisciplinary skills.

All segments carry credits, and the students are expected to earn the minimum number of credits in their coursework towards program core to earn the degree.

2) Common Core (Credit Courses): Common Core Curriculum (CCC) courses are to be pursued by all students of the University regardless of their School of Study. It also encourages students to explore themselves and issues of fundamental importance to society through the Common Core Curriculum (CCC) courses. Students are expected to earn a certain specified number of credits in their coursework towards the Common Core Curriculum (CCC), during their academic programmes. While some courses are in workshop mode, which can be completed over a few days at a stretch, there are other courses which are offered for a specific number of hours per week throughout a semester.

Students take these courses planned for each academic programme, over multiple semesters. Credits range from 1 to 4, which are directly proportional to the number of hours required to complete a course. There are both 'mandatory' and 'choice' courses, with levels within them.

3) Common Core (Non-credit Courses / Engagement) - Graduate Requirement

(GR): Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:

- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.
- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.

4) Advanced Course: Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.

5) Prerequisite course: Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline

- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.
- **500 Level Courses:** These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline.
- **600 Level Courses:** These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level.
- **700 Level Courses:** The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.

17UGBD 3.6	<p>Seminars:</p> <p>Some Programmes may prescribe Seminar as a requirement for the degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published technical literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
17UGBD 3.7	<p>Project Work/Dissertation and Summer Internship Program (SIP):</p> <p>Project work/Dissertation and/or SIP is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation/ difficult problem. A Project/Dissertation work may be given in lieu of a discipline specific elective paper. Summer Internship Program, wherever needed, may be introduced as a (or a part of) Project.</p>
17UGBD 3.8	<p>Audit Courses:</p> <p>A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course. The minimum requirement of attendance for an 'Audit Course' is 75%, with any additional requirements as set by the instructor such as submission of assignments and minimum performance in some of the in-semester evaluations. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA > 6.0 will be permitted to 'Audit' a course. A course can be audited provided the course is offered in the semester as a credit course for others, and there is no slot clash. Prior permission of the Instructor is required. 2) Audit courses would be restricted to a maximum of two (2) courses per student in the entire period of the programme. 3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. If the attendance and performance is not satisfactory, the instructor will award 'No Grade'. The grade 'AU' does not carry any grade points and therefore does not figure in SGPA/ CGPA calculations. 4) The course successfully completed in Audit mode will be reflected in the Semester Grade Card, Grade Certificate and the Transcript as Audit Course.

17UGBD 3.9	<p>Registration:</p> <p>It is mandatory for every student to register for a semester to attend various courses/ earn credits, using the prescribed Course Registration Form (CRF), till he completes his programme. The registration shall be completed on or before the prescribed last date for registration announced in the academic calendar.</p> <ol style="list-style-type: none"> 1) On joining the Programme, each student is assigned to a Faculty Adviser or an Advisory group. A student shall register for required courses each semester with prior permission of the Faculty Adviser. 2) The student can register for courses he intends to take during a given semester (including courses in summer semester) on the basis of his plan for each Programme, as given in the Scheme of Teaching and Evaluation and as per the advice given by his Faculty Adviser. 3) The Faculty Adviser is expected to discuss with the student his academic performance during the previous semesters and then decide the number and nature of the courses for which the student can register during the semester within the framework of the Regulations. 4) The Faculty Adviser may advise the student to drop one or more courses/activities based on his academic performance. The Faculty Adviser may even advise a reduced load program over several semesters for students with poor performance at the end of the first semester/year. 5) Students are not permitted to reregister for course/(s), which they have already passed. 6) The registration is deemed to be complete only on approval by the Dean. 7) Without registration, any academic activity (course/seminar etc.) undergone by a student will not be counted towards the requirements of his degree. 8) Students having outstanding dues to the University or a hostel shall not be permitted to register.
17UGBD 3.10	<p>1) Procedure for Registration:</p> <p>The procedure involves the following steps:</p> <ol style="list-style-type: none"> a) A student is required to register for all the courses listed in the curriculum for the first semester. b) The students shall decide on the courses to be registered during the ensuing semester immediately after their SEE examinations as per the advise of their Faculty Advisor. c) They shall submit a print out of the completed CRF, duly attested by the faculty advisor to the Dean through the departmental office within the date notified by the University for registration.

However, Honors degree students can register for a minimum of 20 credits and a maximum of 38 credits.</p> <p>2) Registration for second and subsequent semesters:</p> <p>a) From second semester onwards, registration is dependent on the academic standing of the student. A student with a low academic standing registers for the academic load specified by the Faculty Adviser. In addition he may add one more course (3-5 credits) towards additional learning or to clear backlog courses, without this being considered an overload.</p> <p>b) Students with average academic standing are advised not to attempt full load. Faculty Advisers after careful scrutiny will advise reduced loads depending on previous performance.</p> <p>3) Late Registration:</p> <p>Registration beyond the last date may be permitted only in special cases till the date specified in the Academic Calendar, on payment of a late registration fee.</p>
17UGBD 3.11	<p>Registration for Graduate Requirement (GR) Courses:</p> <p>Graduate Requirement (GR) courses which are mandatory Non-credit courses are treated as complete or incomplete subject to the fulfillment of the minimum requirements of these courses and a minimum of 75% attendance. The award of degree is subject to successful completion of these courses. Formal registration for these courses shall be done along with other courses, at the beginning of the semesters.</p> <p>Not satisfying the minimum requirements of the course will result in a F-RR grade and the student has to re- register for the course when offered next. This requirement must be completed before the end of the Programme.</p>
17UGBD 3.12	<p>Registration for Summer Semester Courses</p> <p>Students are permitted to register for courses during summer semester under the regulation specified by 17UGBD 3.2, on payment of prescribed registration and course fees.</p>

Course adjustment has to be</p>

	<p>done in consultation with the Faculty Adviser. When the need for course adjustment through addition, substitution or dropping of course/s arises, the student without any backlog should do online course adjustment and students with backlog course/s should do it manually by filling a Course Adjustment Form (CAF). CAF has to be signed by both the student and the Faculty Adviser and the same is to be submitted to the Dean.</p> <p>2) If in the second or any of the subsequent semesters, a student finds his academic load too heavy, he may drop one or two courses out of the registered ones on advice from the Faculty Adviser, provided the minimum credit requirements is fulfilled. The last date for doing this is within 10 days after the end of the first test, or as specified in the Academic Calendar.</p> <p>3) Course/s dropped by a student may be taken during a subsequent semester including the summer semester, if offered.</p> <p>4) The minimum number of students to be registered for an Elective to be offered shall be not less than ten, or as decided by the University.</p>

However, CGPA is calculated at the end of each semester from the second semester onwards and reflected in the grade certificate for indicating the progress of the student. 2) Each course in a program is associated with number of credits (C). Based on the number of Credits for a course and obtained Grade Point (GP) for that course in a Semester, the GPA is calculated as given below: <ol style="list-style-type: none"> a) The SGPA is the ratio of sum of the product of the number of credits with the grade points secured by a student in all the courses taken by him and the sum of the number of credits of all the courses undergone by a student, i.e., $SGPA = \sum (C_i \times G_i) / \sum C_i$ Where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course. b) The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e., $CGPA = \sum (C_n \times S_n) / \sum C_n$ Where S_n is the SGPA of the n^{th} semester and C_n is the total number of credits in that semester. 3) Finally the SGPA and CGPA shall be rounded off to 2 decimal places.

17UGBD 8.2	<p>Passing Standards:</p> <ol style="list-style-type: none"> 1) A student shall be declared successful or 'passed' in a Semester, only when he gets a SGPA of 4.00 earning credits as per the scheme of teaching and evaluation, with grade point of 4 or better in every registered course. 2) A student shall be declared successful or 'passed' in the entire Under Graduate programme, only when he gets a minimum CGPA of 4.00 and has completed all the graduate requirement courses as mandated in the scheme of teaching and evaluation.

The transcript will show only the overall CGPA based on all the courses taken by the student. Additional

	<p>courses will be shown separately, indicating the grade earned by the student. 17PGMD 3.3	<p>Curriculum:</p> <p>1) Every Programme has a prescribed course structure which, in general terms, is known as the Curriculum or the Courses of Study or the Scheme of Teaching and Evaluation. 17PGMD 3.4	<p>Course Credit Structure:</p> <ol style="list-style-type: none"> 1) A certain quantum of academic work, measured in terms of credits, is laid down as the requirement for completion of degree in the different programme and the available specialization areas. A student earns credits by satisfactorily completing courses/ other academic activities every semester. 2) The credits are distributed semester wise, as prescribed in the Scheme of Teaching and Evaluation for each of the programmes. The courses generally progress in sequences, building competencies as per the course learning outcomes. The positioning of a course indicates certain academic maturity on the part of the students. 3) Some courses do, in addition, specify passing in other courses, offered earlier in the programmes as prerequisites for the course. 4) Students are required to follow the semester wise schedule of courses specified in Scheme of Teaching and Evaluation; they do, however, have freedom to follow alternative schedules to optimize their academic profile with additional courses, keeping the requirements for each course in mind. For students with backlog courses, such rescheduling may even become necessary. Such departures from suggested schedules need to be done very carefully, and always with advice from the Faculty Adviser.
17PGMD 3.5	<p>Courses:</p> <p>There will be following types of courses in a programme, namely:</p> <ol style="list-style-type: none"> 1) Core Courses (CC): Essential courses, which are considered to be useful for all students of the programme, irrespective of their choice of elective group/ specialization. 2) Core Elective (CE): including additional knowledge and skill courses, considered to be useful for developing additional skills/ competencies, irrespective of elective group/ specialization. 3) Elective Courses (EC): including knowledge and skill courses focusing on function/ sector specific skills/ competencies leading to focused study in an elective group/ specialization area. 4) Project work/ Internship/ Seminars/ Dissertations can also be offered as independent course in the programme subject to allocation of required credit hour allocation to the course. The requirements for Seminar/ Project/Internship/ Dissertation based courses will, be as specified in the course-guidelines / details approved by the Board of the Studies of the School. 5) Graduate Requirement (GR) Courses: These are courses on peripheral subjects in a programme, wherein completion of the course is considered mandatory to qualify for the award of the Degree.

- 6) Project work, Mini Project work and Internship and Seminar are also considered as courses in the programme.

The Courses of the Programme are further classified as follows:

- 1) Program Core (Credit Courses):** Each academic programme is divided into Program Core or Common core courses which are further divided into mandatory and choice segments, with levels within them.

The Program Core courses are broadly categorized into Foundation, Electives and Interdisciplinary.

Foundation, Elective and interdisciplinary courses are discipline specific or allied to the program. Foundation courses are mandatory courses that are offered through the period of study of the program. Foundation courses are offered as fundamental, intermediate and advanced courses based on the prerequisite and difficulty level (100 Level / 200 Level / 300 Level etc.) of the course. Elective courses are a basket of courses from which the student gets to choose. Elective courses are either specialization courses or generic courses. Elective courses include mini projects, dissertations, internships and capstone projects. Students also have the option to choose from a set of interdisciplinary courses which are varied from their discipline and offered by other Schools of Studies of the University.

Mandatory segments are those which lay a firm foundation of the knowledge required to complete a programme in the chosen domain, ending with a multifaceted assignment that serves as a culminating academic and intellectual experience for students, typically during their final year.

Choice segments are those which a student could opt for to specialize further and / or to improve their interdisciplinary skills.

All segments carry credits, and the students are expected to earn the minimum number of credits in their coursework towards program core to earn the degree.

- 2) Common Core (Credit Courses):** Common Core Curriculum (CCC) courses are to be pursued by all students of the University regardless of their School of Study. It also encourages students to explore themselves and issues of fundamental importance to society through the Common Core Curriculum (CCC) courses. Students are expected to earn a certain specified number of credits in their coursework towards the Common Core Curriculum (CCC), during their academic programmes. While some courses are in workshop mode, which can be completed over a few days at a stretch, there are other courses which are offered for a specific number of hours per week throughout a semester.

Students take these courses planned for each academic programme, over multiple semesters. Credits range from 1 to 4, which are directly proportional to the number of hours required to complete a course. There are both 'mandatory' and 'choice' courses, with levels within them.

3) Common Core (Non-credit Courses / Engagement) - Graduate Requirement (GR):

Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:

- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.
- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.

4) Advanced Course: Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.

5) Prerequisite course: Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline

- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.
- **500 Level Courses:** These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline.
- **600 Level Courses:** These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level.
- **700 Level Courses:** The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.

17PGMD 3.6	<p>Seminars: Some Programmes may prescribe Seminar as a requirement for the degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published technical literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
17PGMD 3.7	<p>Project Work/Dissertation and Summer Internship Program (SIP): Project work/Dissertation and/or SIP is considered as a special course involving application of knowledge in solving / analyzing /exploring a real-life situation/ difficult problem. A Project/ Dissertation work would be for specified number of credits, as prescribed in the Scheme of Teaching and Evaluation. A Project/Dissertation work may be given in lieu of a discipline specific elective paper. Summer Internship Program, wherever needed, may be introduced as a (or a part of) Project.</p>
17PGMD 3.8	<p>Audit Courses: A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course. The minimum requirement of attendance for an 'Audit Course' is 75%, with any additional requirements as set by the instructor such as submission of assignments and minimum performance in some of the in-semester evaluations. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA> 6.0 will be permitted to 'Audit' a course. A course can be audited provided the course is offered in the semester as a credit course for others, and there is no slot clash. Prior permission of the Instructor is required. 2) Audit courses would be restricted to a maximum of two (2) courses per student in the entire period of the programme. 3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. If the attendance and performance is not satisfactory, the instructor will award 'No Grade'. The grade 'AU' does not carry any grade points and therefore does not figure in SGPA/ CGPA calculations. 4) The course successfully completed in Audit mode will be reflected in the Grade Card, Grade Certificate and the Transcript as Audit Course.

17PGMD 3.9	<p>Registration: It is mandatory for every student to register for a semester to attend various courses/ earn credits, using the prescribed Course Registration Form (CRF), till he completes his programme. A student shall register for required courses each semester with prior permission of the Faculty Adviser. 2) The student can register for courses he intends to take during a given semester (including courses in summer semester) on the basis of his plan for each Programme, as given in the Scheme of Teaching and Evaluation and as per the advice given by his Faculty Adviser. 3) The Faculty Adviser is expected to discuss with the student his academic performance during the previous semesters and then decide the number and nature of the courses for which the student can register during the semester within the framework of the Regulations. 4) The Faculty Adviser may advise the student to drop one or more courses/activities based on his academic performance. The Faculty Adviser may even advise a reduced load program over several semesters for students with poor performance at the end of the first semester/year. 5) Students are not permitted to reregister for course/(s), which they have already passed. 6) The registration is deemed to be complete only on approval by the Dean. 7) Without registration, any academic activity (course/seminar etc.) undergone by a student will not be counted towards the requirements of his degree. 8) Students having outstanding dues to the University or a hostel shall not be permitted to register.

	<p>2) Registration for second and subsequent semesters:</p> <p>a) From second semester onwards, registration is dependent on the academic standing of the student. A student with a low academic standing registers for the academic load specified by the Faculty Adviser. In addition he may add one more course (3-5 credits) towards additional learning or to clear backlog courses, without this being considered an overload.</p> <p>b) Students with average academic standing are advised not to attempt full load. Faculty Advisers after careful scrutiny will advise reduced loads depending on previous performance.</p> <p>3) Late Registration: Registration beyond the last date may be permitted only in special cases till the date specified in the Academic Calendar, on payment of a late registration fee.</p>
17PGMD 3.11	<p>Registration for Graduate Requirement (GR) Courses:</p> <p>Graduate Requirement (GR) courses which are mandatory Non-credit courses are treated as complete or incomplete subject to the fulfillment of the minimum requirements of these courses and a minimum of 75% attendance. The award of degree is subject to successful completion of these courses. Formal registration for these courses shall be done along with other courses, at the beginning of the semesters.</p> <p>Not satisfying the minimum requirements of the course will result in a F-RR grade and the student has to re- register for the course when offered next. However, CGPA is calculated at the end of each semester from the second semester onwards and reflected in the grade certificate for indicating the progress of the student. 2) Each course in a program is associated with number of credits (C). Based on the number of Credits for a course and obtained Grade Point (GP) for that course in a Semester, the GPA is calculated as given below: <ol style="list-style-type: none"> a) The SGPA is the ratio of sum of the product of the number of credits with the grade points secured by a student in all the courses taken by him and the sum of the number of credits of all the courses undergone by a student, i.e., $SGPA = \frac{\sum (C_i \times G_i)}{\sum C_i}$ <p>Where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course.</p>

	<p>b) The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e., $CGPA = \sum (C_n \times S_n) / \sum C_n$</p> <p>Where S_n is the SGPA of the n^{th} semester and C_n is the total number of credits in that semester.</p> <p>Finally the SGPA and CGPA shall be rounded off to 2 decimal places.</p>

The courses generally progress in sequences, building competencies as per the course learning outcomes. The positioning of a course indicates certain academic maturity on the part of the students.

	<p>3) Some courses do, in addition, specify passing in other courses, offered earlier in the programmes as prerequisites for the course.</p> <p>4) Students are required to follow the semester wise schedule of courses specified in Scheme of Teaching and Evaluation; they do, however, have freedom to follow alternative schedules to optimize their academic profile with additional courses, keeping the requirements for each course in mind. The requirements for Seminar/ Project/Internship/ Dissertation based courses will, be as specified in the course-guidelines/details approved by the Board of the Studies of the School. 6) Graduate Requirement (GR) Courses: These are courses on peripheral subjects in a programme, wherein completion of the course is considered mandatory to qualify for the award of the Degree. 7) Project work, Mini Project work and Internship and Seminar are also considered as courses in the programme.

The Courses of the Programme are further classified as follows:

1) Program Core (Credit Courses): Each academic programme is divided into Program Core or Common core courses which are further divided into mandatory and choice segments, with levels within them.

The Program Core courses are broadly categorized into Foundation, Electives and Interdisciplinary.

Foundation, Elective and interdisciplinary courses are discipline specific or allied to the program. Foundation courses are mandatory courses that are offered through the period of study of the program. Foundation courses are offered as fundamental, intermediate and advanced courses based on the prerequisite and difficulty level (100 Level / 200 Level / 300 Level etc.) of the course. Elective courses are a basket of courses from which the student gets to choose. Elective courses are either specialization courses or generic courses. Elective courses include mini projects, dissertations, internships and capstone projects. Students also have the option to choose from a set of interdisciplinary courses which are varied from their discipline and offered by other Schools of Studies of the University.

Mandatory segments are those which lay a firm foundation of the knowledge required to complete a programme in the chosen domain, ending with a multifaceted assignment that serves as a culminating academic and intellectual experience for students, typically during their final year.

Choice segments are those which a student could opt for to specialize further and / or to improve their interdisciplinary skills.

All segments carry credits, and the students are expected to earn the minimum number of credits in their coursework towards program core to earn the degree.

2) Common Core (Credit Courses): Common Core Curriculum (CCC) courses are to be pursued by all students of the University regardless of their School of Study. It also encourages students to explore themselves and issues of fundamental importance to society through the Common Core Curriculum (CCC) courses. Students are expected to earn a certain specified number of credits in their coursework towards the Common Core Curriculum (CCC), during their academic programmes. While some courses are in workshop mode, which can be completed over a few days at a stretch, there are other courses which are offered for a specific number of hours per week throughout a semester.

Students take these courses planned for each academic programme, over multiple semesters. Credits range from 1 to 4, which are directly proportional to the number of hours required to complete a course. There are both 'mandatory' and 'choice' courses, with levels within them.

3) Common Core (Non-credit Courses / Engagement) - Graduate Requirement (GR): Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:

- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.
- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.

4) Advanced Course: Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.

5) Prerequisite course: Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline

- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.
- **500 Level Courses:** These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline.
- **600 Level Courses:** These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level.
- **700 Level Courses:** The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.

17PGBD 3.6	<p>Seminars:</p> <p>Some Programmes may prescribe Seminar as a requirement for the degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published technical literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
17PGBD 3.7	<p>Project Work/Dissertation and Summer Internship Program (SIP):</p> <p>Project work/Dissertation and/or SIP is considered as a special course involving application of knowledge in solving / analyzing /exploring a real-life situation/ difficult problem. A Project/ Dissertation work would be for specified number of credits, as prescribed in the Scheme of Teaching and Evaluation. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.</p> <p>Summer Internship Program, wherever needed, may be introduced as a (or a part of) Project.</p>
17PGBD 3.8	<p>Audit Courses:</p> <p>A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course. The minimum requirement of attendance for an 'Audit Course' is 75%, with any additional requirements as set by the instructor such as submission of assignments and minimum performance in some of the in-semester evaluations. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA> 6.0 will be permitted to 'Audit' a course. A course can be audited provided the course is offered in the semester as a credit course for others, and there is no slot clash. Prior permission of the Instructor is required. 2) Audit courses would be restricted to a maximum of two (2) courses per student in the entire period of the programme. 3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. If the attendance and performance is not satisfactory, the instructor will award 'No Grade'. The grade 'AU' does not carry any grade points and therefore does not figure in SGPA/ CGPA calculations. 4) The course successfully completed in Audit mode will be reflected in the Grade Card, Grade Certificate and the Transcript as Audit Course.

17PGBD 3.9	<p>Registration:</p> <p>It is mandatory for every student to register for a semester to attend various courses/ earn credits, using the prescribed Course Registration Form (CRF), till he completes his programme. A student shall register for required courses each semester with prior permission of the Faculty Adviser. 2) The student can register for courses he intends to take during a given semester (including courses in summer semester) on the basis of his plan for each Programme, as given in the Scheme of Teaching and Evaluation and as per the advice given by his Faculty Adviser. 3) The Faculty Adviser is expected to discuss with the student his academic performance during the previous semesters and then decide the number and nature of the courses for which the student can register during the semester within the framework of the Regulations. 4) The Faculty Adviser may advise the student to drop one or more courses/activities based on his academic performance. The Faculty Adviser may even advise a reduced load program over several semesters for students with poor performance at the end of the first semester/year. 5) Students are not permitted to reregister for course/(s), which they have already passed. 6) The registration is deemed to be complete only on approval by the Dean. 7) Without registration, any academic activity (course/seminar etc.) undergone by a student will not be counted towards the requirements of his degree. 8) Students having outstanding dues to the University or a hostel shall not be permitted to register.

In addition he may add one more course (3-5 credits) towards additional learning or to clear backlog courses, without this being considered an overload. b) Students with average academic standing are advised not to attempt full load. Faculty Advisers after careful scrutiny will advise academic loads depending on previous performance. <p>3) Late Registration:</p> <p>Registration beyond the last date may be permitted only in special cases till the date specified in the Academic Calendar, on payment of a late registration fee.</p>
17PGBD 3.11	<p>Registration for Graduate Requirement (GR) Courses:</p> <p>Graduate Requirement (GR) courses which are mandatory Non-credit courses are treated as complete or incomplete subject to the fulfillment of the minimum requirements of these courses and a minimum of 75% attendance. During the summer vacation (May/June to July), the Summer term is conducted to offer courses as per 22PGBD 3.2.</p>
22PGBD 3.2	<p>Summer Term:</p> <p>The summer term is additional semester that is conducted during an academic year. However, during a summer term, a limited number of courses maybe offered to enable the students to clear their backlog courses (F-RR) and/or register for additional regular credit courses on audit basis, subject to strict adherence to the following guidelines:</p> <ol style="list-style-type: none"> 1) The Program Council shall identify the courses to be offered along with the Course Instructor and recommend offering of such summer course (s) to the Dean for consideration. The identified faculty members shall offer the courses only on approval by the Dean. 2) The course is offered in the same manner as a regular semester course without compromising the course requirements in terms of knowledge delivery, course work, assessment and evaluation. 22PGBD 3.3	<p>Curriculum:</p> <ol style="list-style-type: none"> 1) Every Programme has a prescribed course structure which, in general terms, is known as the Curriculum or the Courses of Study or the Scheme of Teaching and Evaluation. It prescribes all the courses/ laboratory/ other requirements for the degree and sets out the nominal sequence semester wise. It also provides the syllabus and a list of text/ reference books (or other learning material sources) for each course. 2) The University shall not only lay down the syllabus for each course, but also the manner of its implementation, namely, through lectures, tutorials, laboratory sessions, seminars, field work, projects and such other activities. 3) The Courses of Study details are updated every semester and are made available at the School's page of the University website: http://www.cmr.edu.in/. 4) Curriculum may also include SWAYAM or Massive Open Online Courses (MOOCs), offered by premier Institutions worldwide. However, selection of SWAYAM or MOOCs, if any, shall always be within prescribed guidelines of the relevant regulatory bodies.
22PGBD 3.4	<p>Course Credit Structure:</p> <ol style="list-style-type: none"> 1) A certain quantum of academic work, measured in terms of credits, is laid down as the requirement for completion of degree in the different programme and the available specialization areas. A student earns credits by satisfactorily completing courses/ other academic activities every semester. 2) The credits are distributed semester wise, as prescribed in the Scheme of Teaching and Evaluation for each of the programme. The courses generally progress in sequences, building competencies as per the course learning outcomes. The positioning of a course indicates certain academic maturity on the part of the students. 3) Some courses do, in addition, specify passing in other courses, offered earlier in the programmes as prerequisites for the course. 4) Students are required to follow the semester wise schedule of courses specified in Scheme of Teaching and Evaluation; they do, however, have freedom to follow alternative schedules to optimize their academic profile with additional courses, keeping the requirements for each course in mind. For students with backlog courses, such rescheduling may even become necessary. Such departures from suggested schedules need to be done very carefully, and always with advice from the Faculty Adviser.

22PGBD 3.5	<p>Courses: There will be following types of courses in a programme, namely:</p> <ol style="list-style-type: none"> 1) Core Courses (CC): including essential foundation and functional management skill courses, considered to be useful for all management graduates irrespective of their choice of elective group/ specialization. 2) Core Elective (CE): including additional knowledge and skill courses, considered to be useful for developing additional skills/ competencies, irrespective of elective group/ specialization. 3) Advanced Core (AC): including knowledge and skill courses, considered to be useful for developing management skills/ competencies with inter-functional perspectives in management. 4) Elective Courses (EC): including knowledge and skill courses focusing on function/ sector specific management skills/ competencies leading to focused study in an elective group/ specialization area. 5) Project work/ Internship/ Seminars/ Dissertations can also be offered as independent course in the programme subject to allocation of required credit hour allocation to the course. The requirements for Seminar/ Project/Internship/ Dissertation based courses will, be as specified in the course-guidelines/details approved by the Board of the Studies of the School. 6) Graduate Requirement (GR) Courses: These are courses on peripheral subjects in a programme, wherein completion of the course is considered mandatory to qualify for the award of the Degree. 7) Project work, Mini Project work and Internship and Seminar are also considered as courses in the programme. <p>The Courses of the Programme are further classified as follows:</p> <p>1) Program Core (Credit Courses): Each academic programme is divided into Program Core or Common core courses which are further divided into mandatory and choice segments, with levels within them.</p> <p>The Program Core courses are broadly categorized into Foundation, Electives and Interdisciplinary.</p> <p>Foundation, Elective and interdisciplinary courses are discipline specific or allied to the program. Foundation courses are mandatory courses that are offered through the period of study of the program. Foundation courses are offered as fundamental, intermediate and advanced courses based on the prerequisite and difficulty level (100 Level / 200 Level / 300 Level etc.) of the course. Elective courses are a basket of courses from which the student gets to choose. Elective courses are either specialization courses or generic courses. Elective courses include mini projects, dissertations, internships and capstone projects. Students</p>
-------------------	--

also have the option to choose from a set of interdisciplinary courses which are varied from their discipline and offered by other Schools of Studies of the University.

Mandatory segments are those which lay a firm foundation of the knowledge required to complete a programme in the chosen domain, ending with a multifaceted assignment that serves as a culminating academic and intellectual experience for students, typically during their final year.

Choice segments are those which a student could opt for to specialize further and / or to improve their interdisciplinary skills.

All segments carry credits, and the students are expected to earn the minimum number of credits in their coursework towards program core to earn the degree.

- 2) Common Core (Credit Courses):** Common Core Curriculum (CCC) courses are to be pursued by all students of the University regardless of their School of Study. It also encourages students to explore themselves and issues of fundamental importance to society through the Common Core Curriculum (CCC) courses. Students are expected to earn a certain specified number of credits in their coursework towards the Common Core Curriculum (CCC), during their academic programmes. While some courses are in workshop mode, which can be completed over a few days at a stretch, there are other courses which are offered for a specific number of hours per week throughout a semester.

Students take these courses planned for each academic programme, over multiple semesters. Credits range from 1 to 4, which are directly proportional to the number of hours required to complete a course. There are both 'mandatory' and 'choice' courses, with levels within them.

- 3) Common Core (Non-credit Courses / Engagement) - Graduate Requirement (GR):** Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:
- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.

- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.
- c) **Advanced Course:** Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.
- d) **Prerequisite course:** Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline
- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.

	<ul style="list-style-type: none"> • 500 Level Courses: These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline. • 600 Level Courses: These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level. • 700 Level Courses: The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.
22PGBD 3.6	<p>Seminars:</p> <p>Some Programmes may prescribe Seminar as a requirement for the degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published technical literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
22PGBD 3.7	<p>Project Work/Dissertation and Summer Internship Program (SIP):</p> <p>Project work/Dissertation and/or SIP is considered as a special course involving application of knowledge in solving / analyzing /exploring a real-life situation/ difficult problem. A Project/ Dissertation work would be for specified number of credits, as prescribed in the Scheme of Teaching and Evaluation. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.</p> <p>Summer Internship Program, wherever needed, may be introduced as a (or a part of) Project.</p>

22PGBD 3.8	<p>Audit Courses:</p> <p>A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course. The minimum requirement of attendance for an 'Audit Course' is 75%, with any additional requirements as set by the instructor such as submission of assignments and minimum performance in some of the in-semester evaluations. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA > 6.0 will be permitted to 'Audit' a course. A course can be audited provided the course is offered in the semester as a credit course for others, and there is no slot clash. Prior permission of the Instructor is required. 2) Audit courses would be restricted to a maximum of two (2) courses per student in the entire period of the programme. 3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. If the attendance and performance is not satisfactory, the instructor will award 'No Grade'. The grade 'AU' does not carry any grade points and therefore does not figure in SGPA/ CGPA calculations. 4) The course successfully completed in Audit mode will be reflected in the Grade Card, Grade Certificate and the Transcript as Audit Course.
22PGBD 3.9	<p>Registration:</p> <p>It is mandatory for every student to register for a semester to attend various courses/ earn credits, using the prescribed Course Registration Form (CRF), till he completes his programme. The registration shall be completed on or before the prescribed last date for registration announced in the academic calendar.</p> <ol style="list-style-type: none"> 1) On joining the Programme, each student is assigned to a Faculty Adviser or an Advisory group. 	<p>4) The Faculty Adviser may advise the student to drop one or more courses/activities based on his academic performance. The Faculty Adviser may even advise a reduced load program over several semesters for students with poor performance at the end of the first semester/year.</p> <p>5) Students are not permitted to reregister for course/(s), which they have already passed.</p> <p>6) The registration is deemed to be complete only on approval by the Dean.</p> <p>7) Without registration, any academic activity (course/seminar etc.) undergone by a student will not be counted towards the requirements of his degree.</p> <p>8) Students having outstanding dues to the University or a hostel shall not be permitted to register.</p>

In addition he may add one more course (3-5 credits) towards additional learning or to clear backlog courses, without this being considered an overload.</p> <p>b) Students with average academic standing are advised not to attempt full load. Faculty Advisers after careful scrutiny will advise academic loads depending on previous performance.</p> <p>3) Late Registration:</p> <p>Registration beyond the last date may be permitted only in special cases till the date specified in the Academic Calendar, on payment of a late registration fee.</p>

During the summer vacation (May/June to July), the Summer term is conducted to offer courses as per 22PGBD 3.2.</p>
22PGBD 3.2	<p>Summer Term:</p> <p>The summer term is additional semester that is conducted during an academic year. However, during a summer term, a limited number of courses maybe offered to enable the students to clear their backlog courses (F-RR) and/or register for additional regular credit courses on audit basis, subject to strict adherence to the following guidelines:</p> <ol style="list-style-type: none"> 1) The Program Council shall identify the courses to be offered along with the Course Instructor and recommend offering of such summer course (s) to the Dean for consideration. The identified faculty members shall offer the courses only on approval by the Dean. 2) The course is offered in the same manner as a regular semester course without compromising the course requirements in terms of knowledge delivery, course work, assessment and evaluation. 22PGBD 3.3	<p>Curriculum:</p> <ol style="list-style-type: none"> 1) Every Programme has a prescribed course structure which, in general terms, is known as the Curriculum or the Courses of Study or the Scheme of Teaching and Evaluation. It prescribes all the courses/ laboratory/ other requirements for the degree and sets out the nominal sequence semester wise. It also provides the syllabus and a list of text/ reference books (or other learning material sources) for each course. 2) The University shall not only lay down the syllabus for each course, but also the manner of its implementation, namely, through lectures, tutorials, laboratory sessions, seminars, field work, projects and such other activities. 3) The Courses of Study details are updated every semester and are made available at the School's page of the University website: http://www.cmr.edu.in/. 4) Curriculum may also include SWAYAM or Massive Open Online Courses (MOOCs), offered by premier Institutions worldwide. However, selection of SWAYAM or MOOCs, if any, shall always be within prescribed guidelines of the relevant regulatory bodies.
22PGBD 3.4	<p>Course Credit Structure:</p> <ol style="list-style-type: none"> 1) A certain quantum of academic work, measured in terms of credits, is laid down as the requirement for completion of degree in the different programme and the available specialization areas. A student earns credits by satisfactorily completing courses/ other academic activities every semester. 2) The credits are distributed semester wise, as prescribed in the Scheme of Teaching and Evaluation for each of the programme. The courses generally progress in sequences, building competencies as per the course learning outcomes. The positioning of a course indicates certain academic maturity on the part of the students. 3) Some courses do, in addition, specify passing in other courses, offered earlier in the programmes as prerequisites for the course. 4) Students are required to follow the semester wise schedule of courses specified in Scheme of Teaching and Evaluation; they do, however, have freedom to follow alternative schedules to optimize their academic profile with additional courses, keeping the requirements for each course in mind. For students with backlog courses, such rescheduling may even become necessary. Such departures from suggested schedules need to be done very carefully, and always with advice from the Faculty Adviser.

22PGBD 3.5	<p>Courses: There will be following types of courses in a programme, namely:</p> <ol style="list-style-type: none"> 1) Core Courses (CC): including essential foundation and functional management skill courses, considered to be useful for all management graduates irrespective of their choice of elective group/ specialization. 2) Core Elective (CE): including additional knowledge and skill courses, considered to be useful for developing additional skills/ competencies, irrespective of elective group/ specialization. 3) Advanced Core (AC): including knowledge and skill courses, considered to be useful for developing management skills/ competencies with inter-functional perspectives in management. 4) Elective Courses (EC): including knowledge and skill courses focusing on function/ sector specific management skills/ competencies leading to focused study in an elective group/ specialization area. 5) Project work/ Internship/ Seminars/ Dissertations can also be offered as independent course in the programme subject to allocation of required credit hour allocation to the course. The requirements for Seminar/ Project/Internship/ Dissertation based courses will, be as specified in the course-guidelines/details approved by the Board of the Studies of the School. 6) Graduate Requirement (GR) Courses: These are courses on peripheral subjects in a programme, wherein completion of the course is considered mandatory to qualify for the award of the Degree. 7) Project work, Mini Project work and Internship and Seminar are also considered as courses in the programme. <p>The Courses of the Programme are further classified as follows:</p> <p>1) Program Core (Credit Courses): Each academic programme is divided into Program Core or Common core courses which are further divided into mandatory and choice segments, with levels within them.</p> <p>The Program Core courses are broadly categorized into Foundation, Electives and Interdisciplinary.</p> <p>Foundation, Elective and interdisciplinary courses are discipline specific or allied to the program. Foundation courses are mandatory courses that are offered through the period of study of the program. Foundation courses are offered as fundamental, intermediate and advanced courses based on the prerequisite and difficulty level (100 Level / 200 Level / 300 Level etc.) of the course. Elective courses are a basket of courses from which the student gets to choose. Elective courses are either specialization courses or generic courses. Elective courses include mini projects, dissertations, internships and capstone projects. Students</p>
-------------------	--

also have the option to choose from a set of interdisciplinary courses which are varied from their discipline and offered by other Schools of Studies of the University.

Mandatory segments are those which lay a firm foundation of the knowledge required to complete a programme in the chosen domain, ending with a multifaceted assignment that serves as a culminating academic and intellectual experience for students, typically during their final year.

Choice segments are those which a student could opt for to specialize further and / or to improve their interdisciplinary skills.

All segments carry credits, and the students are expected to earn the minimum number of credits in their coursework towards program core to earn the degree.

- 2) Common Core (Credit Courses):** Common Core Curriculum (CCC) courses are to be pursued by all students of the University regardless of their School of Study. It also encourages students to explore themselves and issues of fundamental importance to society through the Common Core Curriculum (CCC) courses. Students are expected to earn a certain specified number of credits in their coursework towards the Common Core Curriculum (CCC), during their academic programmes. While some courses are in workshop mode, which can be completed over a few days at a stretch, there are other courses which are offered for a specific number of hours per week throughout a semester.

Students take these courses planned for each academic programme, over multiple semesters. Credits range from 1 to 4, which are directly proportional to the number of hours required to complete a course. There are both 'mandatory' and 'choice' courses, with levels within them.

- 3) Common Core (Non-credit Courses / Engagement) - Graduate Requirement (GR):** Engagements for this category do not carry any credit(s) but are mandatory for the students to complete them within the duration of the programme, to be considered eligible to graduate (or) earn the degree. These shall be:
- a) **Courses** embedded in the academic programme, where the students must ensure that they attend a minimum attendance percentage.

- b) **Community Service Program** are activities implemented under the Common Core Curriculum Community Service Program (CCC CSP) in which the students have to complete a minimum number of volunteering hours in a semester by rendering services to the society and submit a Reflection Record (RRD) for every volunteering activity completed. In case of a student not having completed the minimum number of volunteering hours in a semester, the shortage in number of hours is to be completed in the subsequent semester(s). However, the student has to complete the mandated total number of volunteering hours within the duration of the programme and submit a Reflection Record (RRD) for every volunteering activity completed.
- c) **Advanced Course:** Courses that involve higher and more complex levels of knowledge and understanding than introductory or foundational learning. It means the student has attained a level of knowledge and understanding of a particular area or topic that goes beyond basic terminology and definitions and is ready to be involved in Analysis, Synthesis and Evaluation of information related to a specific topic or area of learning.
- d) **Prerequisite course:** Course or other requirement that a student must have taken prior to enrolling in a specific course. Students might or might not have a choice of prerequisites to complete.

Courses under various categories can be further classified as:

- **100 Level Courses:** These courses offer an introduction to a subject area and are designed for students in the first year of study. These courses have no prerequisites and are generally courses defining basic concepts or presenting the terminology of a discipline
- **200 Level Courses:** These courses are built on previous units and are normally taken in the second year or later; they may also be available to students with advanced prior knowledge. They are Courses of intermediate college-level difficulty; courses with 100-level course(s) as prerequisite(s)
- **300 Level Courses:** These courses are usually taken in third year or later, after 200-level study in the area. They may also be available to students with advanced prior knowledge. They are courses of advanced college-level difficulty offered for students clearly interested in the discipline or in any stream of the discipline
- **400 Level Courses:** These units of study are advanced courses and are normally taken in the third year or later as the final elements of a three year or four year degree or an integrated degree. The level indicates that the student will be demonstrating coherence and breadth or depth of knowledge and skills. The student may need to have completed a prerequisite course to study a 400 level course.

	<ul style="list-style-type: none"> • 500 Level Courses: These are foundation level courses for higher education qualifications, usually taken in the first year of the masters or postgraduate degree programmes. These are courses meant for students aspiring to specialise in a discipline and would have prerequisites to study a course at this level, which would have been covered in the core curriculum at the bachelor's degree programme in the same discipline. • 600 Level Courses: These courses are usually opted for at the second year of the masters or postgraduate degree programmes, which enhance the learning experience of the previous units. The difficulty level is clearly higher and the student is expected to demonstrate a certain level of proficiency and competence in grasping and interpreting the knowledge gained in the discipline at this level. • 700 Level Courses: The courses prescribed at this level serve as a culminating academic and intellectual experience for students, and are usually taken towards the final semesters of the masters or postgraduate degree programmes where they acquire the skills and knowledge to analyse, evaluate, and solve challenges akin to those faced in real life situations, resulting in achieving mastery in the discipline.
22PGBD 3.6	<p>Seminars:</p> <p>Some Programmes may prescribe Seminar as a requirement for the degree. Seminar may be an assessment component or a course itself wherein the student is expected to do an in-depth study in a specialized area under the guidance of a faculty member. This may include surveying published technical literature, understanding different aspects of the problem and arriving at a status report. While doing a seminar, the student is expected to: critically analyze works of various authors/ researchers; learn the investigation methodologies, study concepts, techniques and the results presented in these papers; and submit a seminar report. It is mandatory to give a seminar presentation before a panel constituted for the purpose. Seminars typically carry 1 to 2 credits.</p>
22PGBD 3.7	<p>Project Work/Dissertation and Summer Internship Program (SIP):</p> <p>Project work/Dissertation and/or SIP is considered as a special course involving application of knowledge in solving / analyzing /exploring a real-life situation/ difficult problem. A Project/ Dissertation work would be for specified number of credits, as prescribed in the Scheme of Teaching and Evaluation. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.</p> <p>Summer Internship Program, wherever needed, may be introduced as a (or a part of) Project.</p>

22PGBD 3.8	<p>Audit Courses:</p> <p>A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course. The minimum requirement of attendance for an 'Audit Course' is 75%, with any additional requirements as set by the instructor such as submission of assignments and minimum performance in some of the in-semester evaluations. Auditing of courses during regular semesters from 3rd semester onwards is permitted under the following conditions:</p> <ol style="list-style-type: none"> 1) Students with CGPA > 6.0 will be permitted to 'Audit' a course. A course can be audited provided the course is offered in the semester as a credit course for others, and there is no slot clash. Prior permission of the Instructor is required. 2) Audit courses would be restricted to a maximum of two (2) courses per student in the entire period of the programme. 3) The instructor would award the 'AU' grade, if the attendance is satisfactory and additional requirements, as set out by the instructor, are met. If the attendance and performance is not satisfactory, the instructor will award 'No Grade'. The grade 'AU' does not carry any grade points and therefore does not figure in SGPA/ CGPA calculations. 4) The course successfully completed in Audit mode will be reflected in the Grade Card, Grade Certificate and the Transcript as Audit Course.
22PGBD 3.9	<p>Registration:</p> <p>It is mandatory for every student to register for a semester to attend various courses/ earn credits, using the prescribed Course Registration Form (CRF), till he completes his programme. A student with a low academic standing registers for the academic load specified by the Faculty Adviser. In addition he may add one more course (3-5 credits) towards additional learning or to clear backlog courses, without this being considered an overload.</p> <p>b) Students with average academic standing are advised not to attempt full load. Faculty Advisers after careful scrutiny will advise academic loads depending on previous performance.</p> <p>3) Late Registration:</p> <p>Registration beyond the last date may be permitted only in special cases till the date specified in the Academic Calendar, on payment of a late registration fee.</p>

The transcript will show only the overall CGPA based on all the courses taken by the student. Additional courses will be shown separately, indicating the grade earned by the student. Additional copies of the transcript can be obtained if needed, on request submitted along with payment of applicable fee. b) Students who have not yet completed the programme can obtain an interim Transcript at the end of any semester, if needed, on request and upon payment of applicable fee.
