Enterprise Resource Planning

The institution is using a full-fledged ERP software to manage the day-to-day operations, such as student enrolment, Course management, fees collection.

ERP : Juno Campus

JUNO Campus, is an AI-Powered, fully integrated, end-to end automation system designed specifically for education institutions.
It's configurable design ensures a GO-LIVE time of 12 weeks even in some of most complex set-ups. The system has been designed to capture, consolidate and generate data and reports required by AICTE, NAAC, NBA and other regulatory/compliance bodies.
Key Differentiation:

- · Complete, end-to-end automation through one system (seamlessly information exchange across verticals)
- · Configurable design to ensure a swift implementation (Go-Live time reduces to weeks from years)
- · Admin can change systems by changing configurations within a matter of minutes (no need to wait for changes in the product)
- · Smart combination of level, roles and duties to ensure automation in its existing form (no change in process flow required

Complete adherence to all Regulatory and Compliance bodies including NACC, MCI, NBA and Washington Accord (all relevant data can be extracted within minutes) Inbuilt lead management module
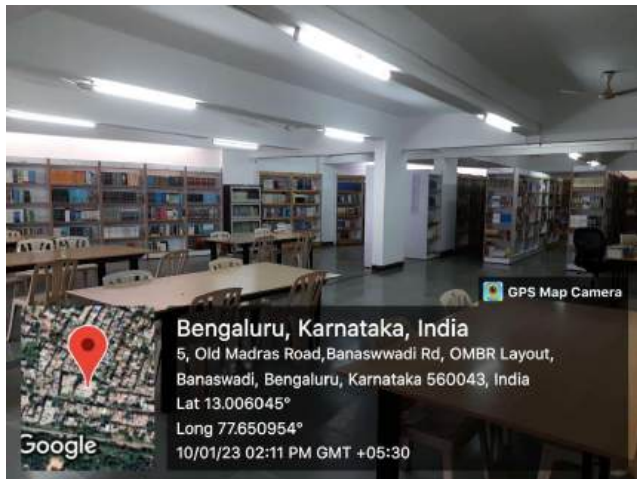

Other Softwares:

GreytHR: Comprehensive HR and Payroll Platform.

greytHR enables an easy-to-use, automated leave management system, specially designed for Small and Medium businesses. It streamlines all the critical areas of leave allocation, tracking, managing, and approving/rejecting leaves with employee self-service and greytHR mobile app.
greytHR brings an online attendance management system that provides real-time integration with all kinds of time capture devices like biometrics, smart card, and facial recognition apps and enables centralized time and attendance solutions.

1. **Student Academic Performance**
   - Fortnightly CIE Analysis:

Academic Year	Programme	Semester	Section	Aggregate

- Implementation of the strategies for slow learners:

Descriptive:

➢ Slow Learners are identified after the IAT-I examination.

➢ Special coaching is given for slow learners after regular class hours, to score well in the internal as well as external examination.

➢ Remedial classes are offered by the subject faculty.

➢ Bridge course is provided to the first year students to bridge the gap in the subjects which they are not familiar with.

- Implementation of the Strategies for advanced learners:

Descriptive:

➢ For advanced learners special classes are held to support the students to secure university ranking.

➢ Beyond academics, advanced learners are encouraged and motivated to take part in various academic activities, represent themselves in various college professional bodies, and attend workshops and seminars and present research papers, leadership positions, innovative projects, application, web development, and additional internships.

➢ Advanced learners will mentor slow learners through a buddy system.

➢ Special attention is provided to these students to enhance their soft skills and develop a holistic approach.

- Fortnightly CIE Analysis:

Academic Year	Programme	Semester	Section	Aggregate

CIE Analysis

- Implementation of the strategies for slow learners:
  (Descriptive + Supporting documents)

Slow Learners:

The slow learners are assessed and identified in the first three weeks of a semester, based on the following parameters: Attendance, Class Participation and Response, Performance in the IATs and CCEs

Some of the strategies practised to improve their learning are as follows: Remedial Teaching throughout and especially at the end of the semester with focus on conceptual clarity and doubt clearing sessions. Extra classes – online or offline at a mutually convenient time are very often offered whenever needs arise. Special Instructional Strategies for Slow Learners are devised to incorporate Students' Interests, Needs, and Experiences. Professors also resort to incorporation of special learning materials and resources, including worksheets and practice exercises, as well as incorporation of Audio and Visual Materials from internet and multimedia resources. Visual media like Yotube videos often helps students listen, view and understand better rather than only subjecting them to lectures.

Remedial classes

- Implementation of the Strategies for advanced learners:
  (Descriptive + Supporting documents)

Advanced Learners

The Advanced learners are assessed and identified in the first three weeks of a semester, based on the following parameters:Class Participation and Response; Performance in the IATs and CCEs; Leadership qualities and initiatives taken in School Activities.

These are only suggested parameters, we as teachers also trust our instinct in identifying the gifted/talented students as they may not necessarily conform to norms. Keen observation by the Class Coordinator is the most helpful in this process. Professors include topics beyond the curriculum and provide enrichment activities. There is also the practice of including them in round-table conferences for syllabi and curriculum discussions. Professors often engage them in Research and Innovation (publishing papers in journals, conference presentations) The university

also develops challenging activities/competitions to bring out their potential. The faculty, Office of Student affairs and the university encourage them to take leadership roles a

t the Departmental/School /University level in various activities of their interest. They are also heavily motivated to represent the University at National and International levels.

2. Student Academic Performance
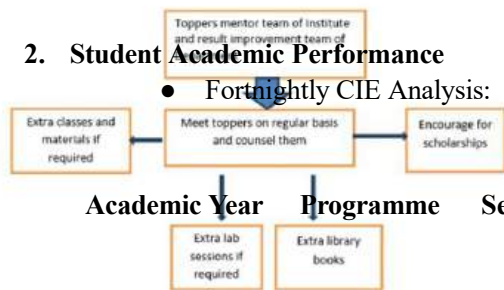

- Fortnightly CIE Analysis:

Academic Year	Programme	Semester	Section	Aggregate

- Implementation of the strategies for slow learners:
  (Descriptive + Supporting documents)

- Implementation of the Strategies for advanced learners:
  (Descriptive + Supporting documents)

For advanced learners
- School encourages bright students by providing them necessary guidance and support.
- Semester Toppers and University rank holders are provided with certificates.
- We encourage them to attend Conferences, workshops, internships and publish papers.
- Students having high academic track records are encouraged to achieve University ranks, to take up competitive examinations like GATE, GRE etc.,

For slow learner
- The school has a well-defined process of monitoring, guiding and assisting slow learners.
- Care is taken by faculty in monitoring the performance of slow learners, the students deviations from studies are observed by the respective section coordinators and corrective measures are taken.
- Faculty members do periodic interaction with parents about the performance of slow learners.
- Parents are informed about the Internal Assessment marks and the attendance on timely basis.
- Faculty members conduct special counseling and tutorial classes for the students who have failed in any subject.

Experiential Learning

Project work

- Capstone Project Design and Build is organized in two phases
- Mini project
- Major Projects this is an essential element of each programme
- Internship or Field Projects in industry

Participation in competition at various level

- For Real time exposure students are encouraged to participate at National and International Level

Field Visits

- Faculty identifies and propose Academically significant Field visits and Surveys

Industrial Visits

- Departments Plan and Organize the industrial visits for students to provide exposure to industrial work culture.

Guest Lecture

- Guest lectures by eminent experts from industry and academics from across the world are organized to supplement the teaching process and provide experiential learning.

Participated Learning

Role play

- Teachers adopt role play method especially in management and PG Technical courses to supplement Teaching by way of participative learning

Team work

- All Departments organize student activities to promote the spirit of Teamwork The activities and Camp of NSS, institutional social responsibility through Red Cross , Village Adoption, Tree plantation . Swatchh Bharat and Health awareness camp to help the students to learn Art of living in a team for Social and community welfare.

Debates

•	Debates: Debates are followed in many of the subjects where students are required to come with different opinions, thought processes thus the learning process gets justified in the arguemental way of learning.

	Group work

•	Practicals and workshops in all individual and group work under the guidance of teachers are also conducted.

Problem solving Methodology

	Case studies

•	Case study method is adopted in the teaching learning process to make the students have logical thinking and practical knowledge to develop problem solving ability. This is commonly adopted in management programmes as well as while teaching Business law, cyber laws etc.

	Discussion

•	University follows the discussion methods in many of the subjects as it makes the students think widely and participate in coming up with the opinions & suggestions to check their current knowledge. Discussions are held basically in soft skills, managerial communications, business adoptions etc.

	Quizzes

•	Quizzes are conducted by subject teachers in all UG and PG programmes.

	Research Activities

•	Research activities are conducted in each Department under the guidance of senior faculty where the students of different semesters get knowledge about emerging areas and help them to promote in Research aptitude.
