The SSCS advantage

STATE-OF-THE-ART COMPUTING CURRICULUM

Our curriculum at the School of Science & Computer Studies (SSCS) is firmly rooted to the foundational principles of computing. It's designed to equip students with the necessary skills to apply these principles innovatively and responsibly in real-world scenarios. We emphasize professionalism and cultivate a clear understanding of ethical and legal considerations within the fields of computer science and Information Technology.

INDUSTRY-ALIGNED EDUCATIONAL PROGRAMS

We forge robust partnerships with industries to ensure that our educational programs align seamlessly with industry needs. These partnerships facilitate internships, opening up avenues for students to gain practical experience. Furthermore, they foster opportunities for both students and faculty to actively engage with industry professionals, enhancing learning outcomes and career prospects.

INCORPORATING AN INNOVATIVE ECOSYSTEM

At SSCS, we foster a culture of innovation by providing an environment conducive to the development of new technologies. Our facilities encourage the transfer of research findings into practical applications, promoting groundbreaking discoveries and advancements in the field of computer science.

FOSTERING CUTTING-EDGE FACILITIES

Our transformative learning environment prioritizes practical application, supported by state-of-the-art computer science facilities. With ten specialist teaching laboratories and 350 workstations running on both Windows and Linux platforms, students have ample resources to deeply engage with coursework and pursue groundbreaking research.
