## Proprietary Information and Inventions Assignment Agreement

---

SHAIK ASMA ZABI

Intern (Print): \_\_\_\_\_

This Proprietary Information and Inventions Assignment Agreement ("Agreement") is made and entered into by Hemavathy K N ("Intern") and **Silabs India Private Limited** (CIN: U72900TG2020PTC139507) ("Silicon Labs" or "the Company") in furtherance to the Intern's internship contract dated January 09, 2023. In consideration of (i) my internship with Silicon Labs, (ii) specialized training in Silicon Labs' business and access to Silicon Labs' proprietary and confidential information that will be provided to me during my internship, and (iii) the compensation and additional benefits that will be paid or granted to me during my internship I agree to the terms set forth below.

The terms of this Agreement apply throughout my internship at Silicon Labs or any of its subsidiaries or affiliated companies, commencing with the first day of my internship at Silicon Labs, as set forth above.

### 1. PROPRIETARY INFORMATION

1.1 The term "**Proprietary Information**" refers to:

(a) all information belonging to, or otherwise relating to the business of, Silicon Labs or its parent, subsidiaries and affiliates (together the "**Silicon Labs Group**"), that is not generally known, and which the Silicon Labs Group has taken reasonable measures under the circumstances to protect from unauthorized use or disclosure; and

(b) all information belonging to, or otherwise relating to the business of a third party, that is not generally known, and which was disclosed by that third party to the Silicon Labs Group in strict confidence.

I understand that Proprietary Information may be contained in any medium, whether oral or written and may not be explicitly marked as proprietary, confidential or a trade secret. If I have questions about whether something is Proprietary Information, I will promptly ask Silicon Labs' Legal Department. I understand that common examples of Proprietary Information are:

- (i) Technical information that is in use, planned, or under development, such as information concerning the manufacturing, testing, and assembly of Silicon Labs' products, specifications and block diagrams of Silicon Labs' products, improvements, ideas, conceptions, compilations of data, data, processes, discoveries, formulas, and compositions of matter and processes relating to the Silicon Labs Group;
- (ii) Business information, such as information concerning business plans, operations, products, corporate strategies, marketing, sales, inventions, designs, costs, legal

strategies, finances, employees, current and prospective customers, licensees, or licensors;

- (iii) Information relating to future plans, such as marketing strategies, new product research, pending projects and proposals, proprietary production processes, research and development strategies, and similar items; and
- (iv) All “trade secrets” within the meaning of the Uniform Trade Secrets Act. I hereby waive any requirement that Silicon Labs submit proof of the economic value of any trade secret or, to the fullest extent permitted by law, to post a bond or other security to enforce its rights under applicable law.

## **1.2 Non-Disclosure**

(a) Except when acting within the scope of my duties or with prior written authorization from the General Counsel or duly-authorized officer of Silicon Labs, I will not use, disclose, or reveal to any person any Proprietary Information provided to me or discovered by me before or during my internship with Silicon Labs.

(b) I will comply with Section 1.2 during and after my internship at Silicon Labs. Nothing in this Section 1.2 shall limit my non-disclosure obligations under any applicable rule, statute, regulation or other Company policy.

At the end of my internship or upon written request from the Company, I will immediately return all Proprietary Information and all electronic or printed copies, containing or in any way pertaining to confidential or Proprietary Information to Silicon Labs.

**1.3 Remedies for Breach.** I agree that my violation of this Agreement would cause irreparable harm to Silicon Labs. Accordingly, in the event of my actual or threatened breach of the provisions of this Agreement, Silicon Labs, in addition to all other rights, will be entitled to seek an injunction restraining me from breaching this Agreement.

## **2. RIGHTS IN DEVELOPMENTS**

**2.1** The term “*Inventions*” refers to each discovery, formulae, idea, improvement, work of authorship, or invention that I make, create, conceive, reduce to practice, develop, or discover, in whole or in part, alone or with others:

- (a) in the performance of any work for Silicon Labs;
- (b) which relates to Silicon Labs’ business; or
- (c) which results from any work performed for Silicon Labs or the use of Silicon Labs’ equipment, supplies, facilities or information.

**2.2** The term “*Intellectual Property Rights*” refers to all trade secrets, patent rights, copyrights, trademarks, Moral Rights (if recognized) and other intellectual property rights recognized by the laws of any jurisdiction or country.

All Inventions, in whatever form, is Silicon Labs' property and Silicon Labs shall be the sole owner of all Intellectual Property Rights in connection with such Inventions. Silicon Labs may freely develop and alter such Inventions, and license, sub-license and assign them to third parties without obtaining my prior consent. If any Invention or Intellectual Property Rights cannot be assigned under applicable law, I grant to Silicon Labs an exclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free, unlimited license that can be sublicensed (through one or multiple tiers), to use, reproduce, distribute, create derivative works of, publicly perform, publicly display and digitally perform and display such work in any media or form now known or hereafter known. Outside the scope of my service, I agree not to (a) distribute, modify, adapt, alter, translate, or create derivative works from any such work of authorship or (b) merge any such work of authorship with other Inventions.

2.4 During and subsequent to my internship with the Silicon Labs Group, I will perform all acts necessary to permit and assist Silicon Labs in documenting, perfecting, obtaining, maintaining, defending, and enforcing Intellectual Property Rights and/or my assignment with respect to such Inventions in any and all countries. This includes executing documents and cooperating in legal proceedings. I agree that such actions will be without compensation, but at Silicon Labs' expense. I irrevocably designate and appoint Silicon Labs and its duly authorized officers and agents, as my agents and attorneys-in-fact to act for and on my behalf and instead of me, to execute and file any documents and to do all other lawfully permitted acts to further the above purposes with the same legal force and effect as if executed by me.

2.5 Any assignment of copyright hereunder includes all rights of paternity, integrity, disclosure, and withdrawal, and any other rights that may be known as or referred to as "**Moral Rights.**" If Moral Rights cannot be assigned under applicable law and the following is allowed by the laws in the various countries where Moral Rights exist, I waive such Moral Rights and consent to any action of Silicon Labs that would violate such Moral Rights in the absence of such consent. I will confirm any such waivers and consents from time to time as requested by Silicon Labs.

2.6 Notwithstanding the provisions of Section 19(4) of the Copyright Act, 1957, all the assignment under this Agreement in so far as it relates to copyrightable material shall not lapse nor the rights transferred therein revert to me, even if Silicon Labs does not exercise the rights under the assignment within a period of one year from the date of assignment. I waive any right to and shall not raise any objection or claims to the Copyright Board with respect to the assignment, pursuant to Section 19A of the Copyright Act, 1957.

2.7 I will not create any Inventions that are unoriginal or defame the Silicon Labs Group, its employees, officers, directors, consultants, agents, or any third party or constitute a violation of the rights of privacy of Silicon Labs' other employees or any third party.

2.8 I will keep complete, accurate, and authentic information and records on all Inventions. Such information and records, including copies, will be Silicon Labs' property and are considered Proprietary Information and therefore subject to Article 1. I will promptly surrender all such original and electronic or printed copies of such information and records when requested or within 24 hours from the end of my internship.

2.9 I acknowledge and agree that nothing in this Agreement grants me, by implication, estoppel or otherwise: (a) a license to any rights in a Silicon Labs Invention or any Ownership Rights therein or (b) a license regarding and of Silicon Labs' existing or future Ownership Rights. If I desire to identify and state specifically that certain prior inventions are not subject to this Agreement (collectively, "**Retained Inventions**"), I will complete the Retained Inventions Statement attached as Schedule A to this Agreement. If I incorporate or help incorporate any Retained Inventions into an Invention, product or service, or rely upon any Retained Invention in discovering, developing, creating, conceiving, or reducing to practice any Invention, product or service, I hereby grant to the Company a nonexclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free license that can be sub-licensed (through one or multiple tiers), to all Intellectual Property Rights in such Retained Inventions.

2.10 **CONSENT TO PHOTOGRAPHY AND OTHER RECORDINGS.** I agree that my name, voice, picture and likeness may be used in Silicon Labs' advertising, training aids, and other materials that relate to the business of Silicon Labs without payment of separate compensation to me. I will not issue or release any articles, advertising, publicity, or other matter relating to Silicon Labs, or provide any information regarding Silicon Labs to any other person intending to do so, without Silicon Labs' specific written consent.

### 3. CHOICE OF LAW

I will update my address with Silicon Labs whenever a change in address occurs. I waive any objection to service by mail where Silicon Labs addresses service to the most recent address provided by me.

3.2 I agree that the laws of India shall apply to any suit, action, or other legal proceeding arising out of or relating to this Agreement, regardless of any contrary common law or statutory provisions related to conflicts of laws. The courts at Hyderabad shall have exclusive jurisdiction over all disputes or claims between the Parties under this Agreement.

4. **ASSIGNMENT.** I will not assign my rights or delegate any duties or obligations under this Agreement. The Agreement will be binding upon my heirs, executors, administrators, and other legal representatives. The rights and obligations of Silicon Labs under this Agreement shall inure to the benefit of and be binding upon the successors and assigns of Silicon Labs and Silicon Labs may freely assign its rights hereunder.

5. **SEVERABILITY.** If any provision of this Agreement is held to be unenforceable, such provision will be distinct and severable from the other provisions of this Agreement, and such unenforceability will not affect the validity and enforceability of the remaining provisions. If a court holds that the Agreed Period, scope, or any other restriction stated in any provision of this Agreement is unreasonable under circumstances then existing, the parties agree that the maximum duration, scope, or other restriction that the court deems reasonable under such circumstances will be substituted and that the court will have the power to revise any of those restrictions to cover the maximum period, scope, and/or other restriction permitted by law. It is the intent of the parties that the court, in establishing any such substitute restriction, recognize that the parties' desire is that the stated restrictions upon which the parties have agreed be honored to the maximum lawful extent.

### 6. MISCELLANEOUS

6.1 The waiver by Silicon Labs of any provision of this Agreement, or the waiver by Silicon Labs of a breach of any provision of this Agreement by me, shall not operate or be construed as a further or continuing waiver of any subsequent breach by me.

6.2 This Agreement constitutes the sole and entire agreement between the parties relating to its subject matter, and it supersedes and cancels all previous written or verbal agreements or understandings between the parties except that this Agreement shall not be deemed to supersede or cancel any obligations of me under any deferred compensation or stock option award plan to which I may be a party.

## Proprietary Information and Inventions Assignment Agreement

---

SHIVANI B

Intern (Print): \_\_\_\_\_

This Proprietary Information and Inventions Assignment Agreement ("Agreement") is made and entered into by Hemavathy K N ("Intern") and **Silabs India Private Limited** (CIN: U72900TG2020PTC139507) ("Silicon Labs" or "the Company") in furtherance to the Intern's internship contract dated January 09, 2023. The Intern and Silicon Labs are collectively referred to as the "Parties" and individually as the "Party."

In consideration of (i) my internship with Silicon Labs, (ii) specialized training in Silicon Labs' business and access to Silicon Labs' proprietary and confidential information that will be provided to me during my internship, and (iii) the compensation and additional benefits that will be paid or granted to me during my internship I agree to the terms set forth below.

The terms of this Agreement apply throughout my internship at Silicon Labs or any of its subsidiaries or affiliated companies, commencing with the first day of my internship at Silicon Labs, as set forth above.

### 1. PROPRIETARY INFORMATION

1.1 The term "**Proprietary Information**" refers to:

(a) all information belonging to, or otherwise relating to the business of, Silicon Labs or its parent, subsidiaries and affiliates (together the "**Silicon Labs Group**"), that is not generally known, and which the Silicon Labs Group has taken reasonable measures under the circumstances to protect from unauthorized use or disclosure; and

(b) all information belonging to, or otherwise relating to the business of a third party, that is not generally known, and which was disclosed by that third party to the Silicon Labs Group in strict confidence.

I understand that Proprietary Information may be contained in any medium, whether oral or written and may not be explicitly marked as proprietary, confidential or a trade secret. If I have questions about whether something is Proprietary Information, I will promptly ask Silicon Labs' Legal Department. I understand that common examples of Proprietary Information are:

- (i) Technical information that is in use, planned, or under development, such as information concerning the manufacturing, testing, and assembly of Silicon Labs' products, specifications and block diagrams of Silicon Labs' products, improvements, ideas, conceptions, compilations of data, data, processes, discoveries, formulas, and compositions of matter and processes relating to the Silicon Labs Group;
- (ii) Business information, such as information concerning business plans, operations, products, corporate strategies, marketing, sales, inventions, designs, costs, legal

strategies, finances, employees, current and prospective customers, licensees, or licensors;

- (iii) Information relating to future plans, such as marketing strategies, new product research, pending projects and proposals, proprietary production processes, research and development strategies, and similar items; and
- (iv) All “trade secrets” within the meaning of the Uniform Trade Secrets Act. I hereby waive any requirement that Silicon Labs submit proof of the economic value of any trade secret or, to the fullest extent permitted by law, to post a bond or other security to enforce its rights under applicable law.

## **1.2 Non-Disclosure**

(a) Except when acting within the scope of my duties or with prior written authorization from the General Counsel or duly-authorized officer of Silicon Labs, I will not use, disclose, or reveal to any person any Proprietary Information provided to me or discovered by me before or during my internship with Silicon Labs.

(b) I will comply with Section 1.2 during and after my internship at Silicon Labs. Nothing in this Section 1.2 shall limit my non-disclosure obligations under any applicable rule, statute, regulation or other Company policy.

At the end of my internship or upon written request from the Company, I will immediately return all Proprietary Information and all electronic or printed copies, containing or in any way pertaining to confidential or Proprietary Information to Silicon Labs.

**1.3 Remedies for Breach.** I agree that my violation of this Agreement would cause irreparable harm to Silicon Labs. Accordingly, in the event of my actual or threatened breach of the provisions of this Agreement, Silicon Labs, in addition to all other rights, will be entitled to seek an injunction restraining me from breaching this Agreement.

## **2. RIGHTS IN DEVELOPMENTS**

**2.1** The term “*Inventions*” refers to each discovery, formulae, idea, improvement, work of authorship, or invention that I make, create, conceive, reduce to practice, develop, or discover, in whole or in part, alone or with others:

- (a) in the performance of any work for Silicon Labs;
- (b) which relates to Silicon Labs’ business; or
- (c) which results from any work performed for Silicon Labs or the use of Silicon Labs’ equipment, supplies, facilities or information.

**2.2** The term “*Intellectual Property Rights*” refers to all trade secrets, patent rights, copyrights, trademarks, Moral Rights (if recognized) and other intellectual property rights recognized by the laws of any jurisdiction or country.

2.3 I assign and agree to assign to Silicon Labs all of my rights to any Inventions (and all Intellectual Property Rights with respect thereto), absolutely and forever, throughout the world and for the full term of each right, including renewals and extensions. All Inventions, in whatever form, is Silicon Labs' property and Silicon Labs shall be the sole owner of all Intellectual Property Rights in connection with such Inventions. Silicon Labs may freely develop and alter such Inventions, and license, sub-license and assign them to third parties without obtaining my prior consent. If any Invention or Intellectual Property Rights cannot be assigned under applicable law, I grant to Silicon Labs an exclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free, unlimited license that can be sublicensed (through one or multiple tiers), to use, reproduce, distribute, create derivative works of, publicly perform, publicly display and digitally perform and display such work in any media or form now known or hereafter known. Outside the scope of my service, I agree not to (a) distribute, modify, adapt, alter, translate, or create derivative works from any such work of authorship or (b) merge any such work of authorship with other Inventions.

2.4 During and subsequent to my internship with the Silicon Labs Group, I will perform all acts necessary to permit and assist Silicon Labs in documenting, perfecting, obtaining, maintaining, defending, and enforcing Intellectual Property Rights and/or my assignment with respect to such Inventions in any and all countries. This includes executing documents and cooperating in legal proceedings. I agree that such actions will be without compensation, but at Silicon Labs' expense. I irrevocably designate and appoint Silicon Labs and its duly authorized officers and agents, as my agents and attorneys-in-fact to act for and on my behalf and instead of me, to execute and file any documents and to do all other lawfully permitted acts to further the above purposes with the same legal force and effect as if executed by me.

2.5 Any assignment of copyright hereunder includes all rights of paternity, integrity, disclosure, and withdrawal, and any other rights that may be known as or referred to as "**Moral Rights.**" If Moral Rights cannot be assigned under applicable law and the following is allowed by the laws in the various countries where Moral Rights exist, I waive such Moral Rights and consent to any action of Silicon Labs that would violate such Moral Rights in the absence of such consent. I will confirm any such waivers and consents from time to time as requested by Silicon Labs.

2.6 Notwithstanding the provisions of Section 19(4) of the Copyright Act, 1957, all the assignment under this Agreement in so far as it relates to copyrightable material shall not lapse nor the rights transferred therein revert to me, even if Silicon Labs does not exercise the rights under the assignment within a period of one year from the date of assignment. I waive any right to and shall not raise any objection or claims to the Copyright Board with respect to the assignment, pursuant to Section 19A of the Copyright Act, 1957.

2.7 I will not create any Inventions that are unoriginal or defame the Silicon Labs Group, its employees, officers, directors, consultants, agents, or any third party or constitute a violation of the rights of privacy of Silicon Labs' other employees or any third party.

2.8 I will keep complete, accurate, and authentic information and records on all Inventions. Such information and records, including copies, will be Silicon Labs' property and are considered Proprietary Information and therefore subject to Article 1. I will promptly surrender all such original and electronic or printed copies of such information and records when requested or within 24 hours from the end of my internship.

2.9 I acknowledge and agree that nothing in this Agreement grants me, by implication, estoppel or otherwise: (a) a license to any rights in a Silicon Labs Invention or any Ownership Rights therein or (b) a license regarding and of Silicon Labs' existing or future Ownership Rights. If I desire to identify and state specifically that certain prior inventions are not subject to this Agreement (collectively, "**Retained Inventions**"), I will complete the Retained Inventions Statement attached as Schedule A to this Agreement. If I incorporate or help incorporate any Retained Inventions into an Invention, product or service, or rely upon any Retained Invention in discovering, developing, creating, conceiving, or reducing to practice any Invention, product or service, I hereby grant to the Company a nonexclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free license that can be sub-licensed (through one or multiple tiers), to all Intellectual Property Rights in such Retained Inventions.

2.10 **CONSENT TO PHOTOGRAPHY AND OTHER RECORDINGS.** I agree that my name, voice, picture and likeness may be used in Silicon Labs' advertising, training aids, and other materials that relate to the business of Silicon Labs without payment of separate compensation to me. I will not issue or release any articles, advertising, publicity, or other matter relating to Silicon Labs, or provide any information regarding Silicon Labs to any other person intending to do so, without Silicon Labs' specific written consent.

### 3. CHOICE OF LAW

3.1 I agree and consent to service by mail of any paper initiating any suit, action, or proceeding at the address set forth on my pay statement. I will update my address with Silicon Labs whenever a change in address occurs. I waive any objection to service by mail where Silicon Labs addresses service to the most recent address provided by me.

3.2 I agree that the laws of India shall apply to any suit, action, or other legal proceeding arising out of or relating to this Agreement, regardless of any contrary common law or statutory provisions related to conflicts of laws. The courts at Hyderabad shall have exclusive jurisdiction over all disputes or claims between the Parties under this Agreement.

4. **ASSIGNMENT.** I will not assign my rights or delegate any duties or obligations under this Agreement. The Agreement will be binding upon my heirs, executors, administrators, and other legal representatives. The rights and obligations of Silicon Labs under this Agreement shall inure to the benefit of and be binding upon the successors and assigns of Silicon Labs and Silicon Labs may freely assign its rights hereunder.

5. **SEVERABILITY.** If any provision of this Agreement is held to be unenforceable, such provision will be distinct and severable from the other provisions of this Agreement, and such unenforceability will not affect the validity and enforceability of the remaining provisions. If a court holds that the Agreed Period, scope, or any other restriction stated in any provision of this Agreement is unreasonable under circumstances then existing, the parties agree that the maximum duration, scope, or other restriction that the court deems reasonable under such circumstances will be substituted and that the court will have the power to revise any of those restrictions to cover the maximum period, scope, and/or other restriction permitted by law. It is the intent of the parties that the court, in establishing any such substitute restriction, recognize that the parties' desire is that the stated restrictions upon which the parties have agreed be honored to the maximum lawful extent.

### 6. MISCELLANEOUS

6.1 The waiver by Silicon Labs of any provision of this Agreement, or the waiver by Silicon Labs of a breach of any provision of this Agreement by me, shall not operate or be construed as a further or continuing waiver of any subsequent breach by me.

6.2 This Agreement constitutes the sole and entire agreement between the parties relating to its subject matter, and it supersedes and cancels all previous written or verbal agreements or understandings between the parties except that this Agreement shall not be deemed to supersede or cancel any obligations of me under any deferred compensation or stock option award plan to which I may be a party.

6.3 I have carefully read and fully understand all provisions of this Agreement and am knowingly and voluntarily entering into this Agreement. I understand and agree that certain provisions of this Agreement, including Articles 1, 1.3, 2.10, 3, 5 and 6, survive termination of my internship with Silicon Labs for any reason and represent continuing obligations of me to Silicon Labs.

IN WITNESS WHEREOF, I have executed this Agreement on the date set forth below.

## Proprietary Information and Inventions Assignment Agreement

---

SYED ZEESHAN ULLA

Intern (Print): \_\_\_\_\_

This Proprietary Information and Inventions Assignment Agreement ("Agreement") is made and entered into by Hemavathy K N ("Intern") and **Silabs India Private Limited** (CIN: U72900TG2020PTC139507) ("Silicon Labs" or "the Company") in furtherance to the Intern's internship contract dated January 09, 2023. The Intern and Silicon Labs are collectively referred to as the "Parties" and individually as the "Party."

In consideration of (i) my internship with Silicon Labs, (ii) specialized training in Silicon Labs' business and access to Silicon Labs' proprietary and confidential information that will be provided to me during my internship, and (iii) the compensation and additional benefits that will be paid or granted to me during my internship I agree to the terms set forth below.

The terms of this Agreement apply throughout my internship at Silicon Labs or any of its subsidiaries or affiliated companies, commencing with the first day of my internship at Silicon Labs, as set forth above.

### 1. PROPRIETARY INFORMATION

1.1 The term "**Proprietary Information**" refers to:

(a) all information belonging to, or otherwise relating to the business of, Silicon Labs or its parent, subsidiaries and affiliates (together the "**Silicon Labs Group**"), that is not generally known, and which the Silicon Labs Group has taken reasonable measures under the circumstances to protect from unauthorized use or disclosure; and

(b) all information belonging to, or otherwise relating to the business of a third party, that is not generally known, and which was disclosed by that third party to the Silicon Labs Group in strict confidence.

I understand that Proprietary Information may be contained in any medium, whether oral or written and may not be explicitly marked as proprietary, confidential or a trade secret. If I have questions about whether something is Proprietary Information, I will promptly ask Silicon Labs' Legal Department. I understand that common examples of Proprietary Information are:

- (i) Technical information that is in use, planned, or under development, such as information concerning the manufacturing, testing, and assembly of Silicon Labs' products, specifications and block diagrams of Silicon Labs' products, improvements, ideas, conceptions, compilations of data, data, processes, discoveries, formulas, and compositions of matter and processes relating to the Silicon Labs Group;
- (ii) Business information, such as information concerning business plans, operations, products, corporate strategies, marketing, sales, inventions, designs, costs, legal

strategies, finances, employees, current and prospective customers, licensees, or licensors;

- (iii) Information relating to future plans, such as marketing strategies, new product research, pending projects and proposals, proprietary production processes, research and development strategies, and similar items; and
- (iv) All “trade secrets” within the meaning of the Uniform Trade Secrets Act. I hereby waive any requirement that Silicon Labs submit proof of the economic value of any trade secret or, to the fullest extent permitted by law, to post a bond or other security to enforce its rights under applicable law.

## 1.2 Non-Disclosure

(a) Except when acting within the scope of my duties or with prior written authorization from the General Counsel or duly-authorized officer of Silicon Labs, I will not use, disclose, or reveal to any person any Proprietary Information provided to me or discovered by me before or during my internship with Silicon Labs.

(b) I will comply with Section 1.2 during and after my internship at Silicon Labs. Nothing in this Section 1.2 shall limit my non-disclosure obligations under any applicable rule, statute, regulation or other Company policy.

At the end of my internship or upon written request from the Company, I will immediately return all Proprietary Information and all electronic or printed copies, containing or in any way pertaining to confidential or Proprietary Information to Silicon Labs.

1.3 **Remedies for Breach.** I agree that my violation of this Agreement would cause irreparable harm to Silicon Labs. Accordingly, in the event of my actual or threatened breach of the provisions of this Agreement, Silicon Labs, in addition to all other rights, will be entitled to seek an injunction restraining me from breaching this Agreement.

## 2. RIGHTS IN DEVELOPMENTS

2.1 The term “**Inventions**” refers to each discovery, formulae, idea, improvement, work of authorship, or invention that I make, create, conceive, reduce to practice, develop, or discover, in whole or in part, alone or with others:

- (a) in the performance of any work for Silicon Labs;
- (b) which relates to Silicon Labs’ business; or
- (c) which results from any work performed for Silicon Labs or the use of Silicon Labs’ equipment, supplies, facilities or information.

2.2 The term “**Intellectual Property Rights**” refers to all trade secrets, patent rights, copyrights, trademarks, Moral Rights (if recognized) and other intellectual property rights recognized by the laws of any jurisdiction or country.

2.3 I assign and agree to assign to Silicon Labs all of my rights to any Inventions (and all Intellectual Property Rights with respect thereto), absolutely and forever, throughout the world and for the full term of each right, including renewals and extensions. All Inventions, in whatever form, is Silicon Labs' property and Silicon Labs shall be the sole owner of all Intellectual Property Rights in connection with such Inventions. Silicon Labs may freely develop and alter such Inventions, and license, sub-license and assign them to third parties without obtaining my prior consent. If any Invention or Intellectual Property Rights cannot be assigned under applicable law, I grant to Silicon Labs an exclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free, unlimited license that can be sublicensed (through one or multiple tiers), to use, reproduce, distribute, create derivative works of, publicly perform, publicly display and digitally perform and display such work in any media or form now known or hereafter known. Outside the scope of my service, I agree not to (a) distribute, modify, adapt, alter, translate, or create derivative works from any such work of authorship or (b) merge any such work of authorship with other Inventions.

2.4 During and subsequent to my internship with the Silicon Labs Group, I will perform all acts necessary to permit and assist Silicon Labs in documenting, perfecting, obtaining, maintaining, defending, and enforcing Intellectual Property Rights and/or my assignment with respect to such Inventions in any and all countries. This includes executing documents and cooperating in legal proceedings. I agree that such actions will be without compensation, but at Silicon Labs' expense. I irrevocably designate and appoint Silicon Labs and its duly authorized officers and agents, as my agents and attorneys-in-fact to act for and on my behalf and instead of me, to execute and file any documents and to do all other lawfully permitted acts to further the above purposes with the same legal force and effect as if executed by me.

2.5 Any assignment of copyright hereunder includes all rights of paternity, integrity, disclosure, and withdrawal, and any other rights that may be known as or referred to as "**Moral Rights.**" If Moral Rights cannot be assigned under applicable law and the following is allowed by the laws in the various countries where Moral Rights exist, I waive such Moral Rights and consent to any action of Silicon Labs that would violate such Moral Rights in the absence of such consent. I will confirm any such waivers and consents from time to time as requested by Silicon Labs.

2.6 Notwithstanding the provisions of Section 19(4) of the Copyright Act, 1957, all the assignment under this Agreement in so far as it relates to copyrightable material shall not lapse nor the rights transferred therein revert to me, even if Silicon Labs does not exercise the rights under the assignment within a period of one year from the date of assignment. I waive any right to and shall not raise any objection or claims to the Copyright Board with respect to the assignment, pursuant to Section 19A of the Copyright Act, 1957.

2.7 I will not create any Inventions that are unoriginal or defame the Silicon Labs Group, its employees, officers, directors, consultants, agents, or any third party or constitute a violation of the rights of privacy of Silicon Labs' other employees or any third party.

2.8 I will keep complete, accurate, and authentic information and records on all Inventions. Such information and records, including copies, will be Silicon Labs' property and are considered Proprietary Information and therefore subject to Article 1. I will promptly surrender all such original and electronic or printed copies of such information and records when requested or within 24 hours from the end of my internship.

2.9 I acknowledge and agree that nothing in this Agreement grants me, by implication, estoppel or otherwise: (a) a license to any rights in a Silicon Labs Invention or any Ownership Rights therein or (b) a license regarding and of Silicon Labs' existing or future Ownership Rights. If I desire to identify and state specifically that certain prior inventions are not subject to this Agreement (collectively, "**Retained Inventions**"), I will complete the Retained Inventions Statement attached as Schedule A to this Agreement. If I incorporate or help incorporate any Retained Inventions into an Invention, product or service, or rely upon any Retained Invention in discovering, developing, creating, conceiving, or reducing to practice any Invention, product or service, I hereby grant to the Company a nonexclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free license that can be sub-licensed (through one or multiple tiers), to all Intellectual Property Rights in such Retained Inventions.

2.10 **CONSENT TO PHOTOGRAPHY AND OTHER RECORDINGS.** I agree that my name, voice, picture and likeness may be used in Silicon Labs' advertising, training aids, and other materials that relate to the business of Silicon Labs without payment of separate compensation to me. I will not issue or release any articles, advertising, publicity, or other matter relating to Silicon Labs, or provide any information regarding Silicon Labs to any other person intending to do so, without Silicon Labs' specific written consent.

### 3. CHOICE OF LAW

3.1 I agree and consent to service by mail of any paper initiating any suit, action, or proceeding at the address set forth on my pay statement. I will update my address with Silicon Labs whenever a change in address occurs. I waive any objection to service by mail where Silicon Labs addresses service to the most recent address provided by me.

3.2 I agree that the laws of India shall apply to any suit, action, or other legal proceeding arising out of or relating to this Agreement, regardless of any contrary common law or statutory provisions related to conflicts of laws. The courts at Hyderabad shall have exclusive jurisdiction over all disputes or claims between the Parties under this Agreement.

4. **ASSIGNMENT.** I will not assign my rights or delegate any duties or obligations under this Agreement. The Agreement will be binding upon my heirs, executors, administrators, and other legal representatives. The rights and obligations of Silicon Labs under this Agreement shall inure to the benefit of and be binding upon the successors and assigns of Silicon Labs and Silicon Labs may freely assign its rights hereunder.

5. **SEVERABILITY.** If any provision of this Agreement is held to be unenforceable, such provision will be distinct and severable from the other provisions of this Agreement, and such unenforceability will not affect the validity and enforceability of the remaining provisions. If a court holds that the Agreed Period, scope, or any other restriction stated in any provision of this Agreement is unreasonable under circumstances then existing, the parties agree that the maximum duration, scope, or other restriction that the court deems reasonable under such circumstances will be substituted and that the court will have the power to revise any of those restrictions to cover the maximum period, scope, and/or other restriction permitted by law. It is the intent of the parties that the court, in establishing any such substitute restriction, recognize that the parties' desire is that the stated restrictions upon which the parties have agreed be honored to the maximum lawful extent.

### 6. MISCELLANEOUS

6.1 The waiver by Silicon Labs of any provision of this Agreement, or the waiver by Silicon Labs of a breach of any provision of this Agreement by me, shall not operate or be construed as a further or continuing waiver of any subsequent breach by me.

6.2 This Agreement constitutes the sole and entire agreement between the parties relating to its subject matter, and it supersedes and cancels all previous written or verbal agreements or understandings between the parties except that this Agreement shall not be deemed to supersede or cancel any obligations of me under any deferred compensation or stock option award plan to which I may be a party.

6.3 I have carefully read and fully understand all provisions of this Agreement and am knowingly and voluntarily entering into this Agreement. I understand and agree that certain provisions of this Agreement, including Articles 1, 1.3, 2.10, 3, 5 and 6, survive termination of my internship with Silicon Labs for any reason and represent continuing obligations of me to Silicon Labs.

IN WITNESS WHEREOF, I have executed this Agreement on the date set forth below.

## Proprietary Information and Inventions Assignment Agreement

---

VENKATBHARAT POLENENI

Intern (Print): \_\_\_\_\_

This Proprietary Information and Inventions Assignment Agreement ("Agreement") is made and entered into by Hemavathy K N ("Intern") and **Silabs India Private Limited** (CIN: U72900TG2020PTC139507) ("Silicon Labs" or "the Company") in furtherance to the Intern's internship contract dated January 09, 2023. The Intern and Silicon Labs are collectively referred to as the "Parties" and individually as the "Party."

In consideration of (i) my internship with Silicon Labs, (ii) specialized training in Silicon Labs' business and access to Silicon Labs' proprietary and confidential information that will be provided to me during my internship, and (iii) the compensation and additional benefits that will be paid or granted to me during my internship I agree to the terms set forth below.

The terms of this Agreement apply throughout my internship at Silicon Labs or any of its subsidiaries or affiliated companies, commencing with the first day of my internship at Silicon Labs, as set forth above.

### 1. PROPRIETARY INFORMATION

1.1 The term "**Proprietary Information**" refers to:

(a) all information belonging to, or otherwise relating to the business of, Silicon Labs or its parent, subsidiaries and affiliates (together the "**Silicon Labs Group**"), that is not generally known, and which the Silicon Labs Group has taken reasonable measures under the circumstances to protect from unauthorized use or disclosure; and

(b) all information belonging to, or otherwise relating to the business of a third party, that is not generally known, and which was disclosed by that third party to the Silicon Labs Group in strict confidence.

I understand that Proprietary Information may be contained in any medium, whether oral or written and may not be explicitly marked as proprietary, confidential or a trade secret. If I have questions about whether something is Proprietary Information, I will promptly ask Silicon Labs' Legal Department. I understand that common examples of Proprietary Information are:

- (i) Technical information that is in use, planned, or under development, such as information concerning the manufacturing, testing, and assembly of Silicon Labs' products, specifications and block diagrams of Silicon Labs' products, improvements, ideas, conceptions, compilations of data, data, processes, discoveries, formulas, and compositions of matter and processes relating to the Silicon Labs Group;
- (ii) Business information, such as information concerning business plans, operations, products, corporate strategies, marketing, sales, inventions, designs, costs, legal

strategies, finances, employees, current and prospective customers, licensees, or licensors;

- (iii) Information relating to future plans, such as marketing strategies, new product research, pending projects and proposals, proprietary production processes, research and development strategies, and similar items; and
- (iv) All “trade secrets” within the meaning of the Uniform Trade Secrets Act. I hereby waive any requirement that Silicon Labs submit proof of the economic value of any trade secret or, to the fullest extent permitted by law, to post a bond or other security to enforce its rights under applicable law.

## **1.2 Non-Disclosure**

(a) Except when acting within the scope of my duties or with prior written authorization from the General Counsel or duly-authorized officer of Silicon Labs, I will not use, disclose, or reveal to any person any Proprietary Information provided to me or discovered by me before or during my internship with Silicon Labs.

(b) I will comply with Section 1.2 during and after my internship at Silicon Labs. Nothing in this Section 1.2 shall limit my non-disclosure obligations under any applicable rule, statute, regulation or other Company policy.

At the end of my internship or upon written request from the Company, I will immediately return all Proprietary Information and all electronic or printed copies, containing or in any way pertaining to confidential or Proprietary Information to Silicon Labs.

**1.3 Remedies for Breach.** I agree that my violation of this Agreement would cause irreparable harm to Silicon Labs. Accordingly, in the event of my actual or threatened breach of the provisions of this Agreement, Silicon Labs, in addition to all other rights, will be entitled to seek an injunction restraining me from breaching this Agreement.

## **2. RIGHTS IN DEVELOPMENTS**

**2.1** The term “*Inventions*” refers to each discovery, formulae, idea, improvement, work of authorship, or invention that I make, create, conceive, reduce to practice, develop, or discover, in whole or in part, alone or with others:

- (a) in the performance of any work for Silicon Labs;
- (b) which relates to Silicon Labs’ business; or
- (c) which results from any work performed for Silicon Labs or the use of Silicon Labs’ equipment, supplies, facilities or information.

**2.2** The term “*Intellectual Property Rights*” refers to all trade secrets, patent rights, copyrights, trademarks, Moral Rights (if recognized) and other intellectual property rights recognized by the laws of any jurisdiction or country.

2.3 I assign and agree to assign to Silicon Labs all of my rights to any Inventions (and all Intellectual Property Rights with respect thereto), absolutely and forever, throughout the world and for the full term of each right, including renewals and extensions. All Inventions, in whatever form, is Silicon Labs' property and Silicon Labs shall be the sole owner of all Intellectual Property Rights in connection with such Inventions. Silicon Labs may freely develop and alter such Inventions, and license, sub-license and assign them to third parties without obtaining my prior consent. If any Invention or Intellectual Property Rights cannot be assigned under applicable law, I grant to Silicon Labs an exclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free, unlimited license that can be sublicensed (through one or multiple tiers), to use, reproduce, distribute, create derivative works of, publicly perform, publicly display and digitally perform and display such work in any media or form now known or hereafter known. Outside the scope of my service, I agree not to (a) distribute, modify, adapt, alter, translate, or create derivative works from any such work of authorship or (b) merge any such work of authorship with other Inventions.

2.4 During and subsequent to my internship with the Silicon Labs Group, I will perform all acts necessary to permit and assist Silicon Labs in documenting, perfecting, obtaining, maintaining, defending, and enforcing Intellectual Property Rights and/or my assignment with respect to such Inventions in any and all countries. This includes executing documents and cooperating in legal proceedings. I agree that such actions will be without compensation, but at Silicon Labs' expense. I irrevocably designate and appoint Silicon Labs and its duly authorized officers and agents, as my agents and attorneys-in-fact to act for and on my behalf and instead of me, to execute and file any documents and to do all other lawfully permitted acts to further the above purposes with the same legal force and effect as if executed by me.

2.5 Any assignment of copyright hereunder includes all rights of paternity, integrity, disclosure, and withdrawal, and any other rights that may be known as or referred to as "**Moral Rights.**" If Moral Rights cannot be assigned under applicable law and the following is allowed by the laws in the various countries where Moral Rights exist, I waive such Moral Rights and consent to any action of Silicon Labs that would violate such Moral Rights in the absence of such consent. I will confirm any such waivers and consents from time to time as requested by Silicon Labs.

2.6 Notwithstanding the provisions of Section 19(4) of the Copyright Act, 1957, all the assignment under this Agreement in so far as it relates to copyrightable material shall not lapse nor the rights transferred therein revert to me, even if Silicon Labs does not exercise the rights under the assignment within a period of one year from the date of assignment. I waive any right to and shall not raise any objection or claims to the Copyright Board with respect to the assignment, pursuant to Section 19A of the Copyright Act, 1957.

2.7 I will not create any Inventions that are unoriginal or defame the Silicon Labs Group, its employees, officers, directors, consultants, agents, or any third party or constitute a violation of the rights of privacy of Silicon Labs' other employees or any third party.

2.8 I will keep complete, accurate, and authentic information and records on all Inventions. Such information and records, including copies, will be Silicon Labs' property and are considered Proprietary Information and therefore subject to Article 1. I will promptly surrender all such original and electronic or printed copies of such information and records when requested or within 24 hours from the end of my internship.

2.9 I acknowledge and agree that nothing in this Agreement grants me, by implication, estoppel or otherwise: (a) a license to any rights in a Silicon Labs Invention or any Ownership Rights therein or (b) a license regarding and of Silicon Labs' existing or future Ownership Rights. If I desire to identify and state specifically that certain prior inventions are not subject to this Agreement (collectively, "**Retained Inventions**"), I will complete the Retained Inventions Statement attached as Schedule A to this Agreement. If I incorporate or help incorporate any Retained Inventions into an Invention, product or service, or rely upon any Retained Invention in discovering, developing, creating, conceiving, or reducing to practice any Invention, product or service, I hereby grant to the Company a nonexclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free license that can be sub-licensed (through one or multiple tiers), to all Intellectual Property Rights in such Retained Inventions.

2.10 **CONSENT TO PHOTOGRAPHY AND OTHER RECORDINGS.** I agree that my name, voice, picture and likeness may be used in Silicon Labs' advertising, training aids, and other materials that relate to the business of Silicon Labs without payment of separate compensation to me. I will not issue or release any articles, advertising, publicity, or other matter relating to Silicon Labs, or provide any information regarding Silicon Labs to any other person intending to do so, without Silicon Labs' specific written consent.

### 3. CHOICE OF LAW

3.1 I agree and consent to service by mail of any paper initiating any suit, action, or proceeding at the address set forth on my pay statement. I will update my address with Silicon Labs whenever a change in address occurs. I waive any objection to service by mail where Silicon Labs addresses service to the most recent address provided by me.

3.2 I agree that the laws of India shall apply to any suit, action, or other legal proceeding arising out of or relating to this Agreement, regardless of any contrary common law or statutory provisions related to conflicts of laws. The courts at Hyderabad shall have exclusive jurisdiction over all disputes or claims between the Parties under this Agreement.

4. **ASSIGNMENT.** I will not assign my rights or delegate any duties or obligations under this Agreement. The Agreement will be binding upon my heirs, executors, administrators, and other legal representatives. The rights and obligations of Silicon Labs under this Agreement shall inure to the benefit of and be binding upon the successors and assigns of Silicon Labs and Silicon Labs may freely assign its rights hereunder.

5. **SEVERABILITY.** If any provision of this Agreement is held to be unenforceable, such provision will be distinct and severable from the other provisions of this Agreement, and such unenforceability will not affect the validity and enforceability of the remaining provisions. If a court holds that the Agreed Period, scope, or any other restriction stated in any provision of this Agreement is unreasonable under circumstances then existing, the parties agree that the maximum duration, scope, or other restriction that the court deems reasonable under such circumstances will be substituted and that the court will have the power to revise any of those restrictions to cover the maximum period, scope, and/or other restriction permitted by law. It is the intent of the parties that the court, in establishing any such substitute restriction, recognize that the parties' desire is that the stated restrictions upon which the parties have agreed be honored to the maximum lawful extent.

### 6. MISCELLANEOUS

6.1 The waiver by Silicon Labs of any provision of this Agreement, or the waiver by Silicon Labs of a breach of any provision of this Agreement by me, shall not operate or be construed as a further or continuing waiver of any subsequent breach by me.

6.2 This Agreement constitutes the sole and entire agreement between the parties relating to its subject matter, and it supersedes and cancels all previous written or verbal agreements or understandings between the parties except that this Agreement shall not be deemed to supersede or cancel any obligations of me under any deferred compensation or stock option award plan to which I may be a party.

6.3 I have carefully read and fully understand all provisions of this Agreement and am knowingly and voluntarily entering into this Agreement. I understand and agree that certain provisions of this Agreement, including Articles 1, 1.3, 2.10, 3, 5 and 6, survive termination of my internship with Silicon Labs for any reason and represent continuing obligations of me to Silicon Labs.

IN WITNESS WHEREOF, I have executed this Agreement on the date set forth below.

## Proprietary Information and Inventions Assignment Agreement

---

VINAYAKA K P

Intern (Print): \_\_\_\_\_

This Proprietary Information and Inventions Assignment Agreement ("Agreement") is made and entered into by Hemavathy K N ("Intern") and **Silabs India Private Limited** (CIN: U72900TG2020PTC139507) ("Silicon Labs" or "the Company") in furtherance to the Intern's internship contract dated January 09, 2023. The Intern and Silicon Labs are collectively referred to as the "Parties" and individually as the "Party."

In consideration of (i) my internship with Silicon Labs, (ii) specialized training in Silicon Labs' business and access to Silicon Labs' proprietary and confidential information that will be provided to me during my internship, and (iii) the compensation and additional benefits that will be paid or granted to me during my internship I agree to the terms set forth below.

The terms of this Agreement apply throughout my internship at Silicon Labs or any of its subsidiaries or affiliated companies, commencing with the first day of my internship at Silicon Labs, as set forth above.

### 1. PROPRIETARY INFORMATION

1.1 The term "***Proprietary Information***" refers to:

(a) all information belonging to, or otherwise relating to the business of, Silicon Labs or its parent, subsidiaries and affiliates (together the "***Silicon Labs Group***"), that is not generally known, and which the Silicon Labs Group has taken reasonable measures under the circumstances to protect from unauthorized use or disclosure; and

(b) all information belonging to, or otherwise relating to the business of a third party, that is not generally known, and which was disclosed by that third party to the Silicon Labs Group in strict confidence.

I understand that Proprietary Information may be contained in any medium, whether oral or written and may not be explicitly marked as proprietary, confidential or a trade secret. If I have questions about whether something is Proprietary Information, I will promptly ask Silicon Labs' Legal Department. I understand that common examples of Proprietary Information are:

- (i) Technical information that is in use, planned, or under development, such as information concerning the manufacturing, testing, and assembly of Silicon Labs' products, specifications and block diagrams of Silicon Labs' products, improvements, ideas, conceptions, compilations of data, data, processes, discoveries, formulas, and compositions of matter and processes relating to the Silicon Labs Group;
- (ii) Business information, such as information concerning business plans, operations, products, corporate strategies, marketing, sales, inventions, designs, costs, legal

strategies, finances, employees, current and prospective customers, licensees, or licensors;

- (iii) Information relating to future plans, such as marketing strategies, new product research, pending projects and proposals, proprietary production processes, research and development strategies, and similar items; and
- (iv) All “trade secrets” within the meaning of the Uniform Trade Secrets Act. I hereby waive any requirement that Silicon Labs submit proof of the economic value of any trade secret or, to the fullest extent permitted by law, to post a bond or other security to enforce its rights under applicable law.

## 1.2 Non-Disclosure

(a) Except when acting within the scope of my duties or with prior written authorization from the General Counsel or duly-authorized officer of Silicon Labs, I will not use, disclose, or reveal to any person any Proprietary Information provided to me or discovered by me before or during my internship with Silicon Labs.

(b) I will comply with Section 1.2 during and after my internship at Silicon Labs. Nothing in this Section 1.2 shall limit my non-disclosure obligations under any applicable rule, statute, regulation or other Company policy.

At the end of my internship or upon written request from the Company, I will immediately return all Proprietary Information and all electronic or printed copies, containing or in any way pertaining to confidential or Proprietary Information to Silicon Labs.

1.3 **Remedies for Breach.** I agree that my violation of this Agreement would cause irreparable harm to Silicon Labs. Accordingly, in the event of my actual or threatened breach of the provisions of this Agreement, Silicon Labs, in addition to all other rights, will be entitled to seek an injunction restraining me from breaching this Agreement.

## 2. RIGHTS IN DEVELOPMENTS

2.1 The term “**Inventions**” refers to each discovery, formulae, idea, improvement, work of authorship, or invention that I make, create, conceive, reduce to practice, develop, or discover, in whole or in part, alone or with others:

- (a) in the performance of any work for Silicon Labs;
- (b) which relates to Silicon Labs’ business; or
- (c) which results from any work performed for Silicon Labs or the use of Silicon Labs’ equipment, supplies, facilities or information.

2.2 The term “**Intellectual Property Rights**” refers to all trade secrets, patent rights, copyrights, trademarks, Moral Rights (if recognized) and other intellectual property rights recognized by the laws of any jurisdiction or country.

2.3 I assign and agree to assign to Silicon Labs all of my rights to any Inventions (and all Intellectual Property Rights with respect thereto), absolutely and forever, throughout the world and for the full term of each right, including renewals and extensions. All Inventions, in whatever form, is Silicon Labs' property and Silicon Labs shall be the sole owner of all Intellectual Property Rights in connection with such Inventions. Silicon Labs may freely develop and alter such Inventions, and license, sub-license and assign them to third parties without obtaining my prior consent. If any Invention or Intellectual Property Rights cannot be assigned under applicable law, I grant to Silicon Labs an exclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free, unlimited license that can be sublicensed (through one or multiple tiers), to use, reproduce, distribute, create derivative works of, publicly perform, publicly display and digitally perform and display such work in any media or form now known or hereafter known. Outside the scope of my service, I agree not to (a) distribute, modify, adapt, alter, translate, or create derivative works from any such work of authorship or (b) merge any such work of authorship with other Inventions.

2.4 During and subsequent to my internship with the Silicon Labs Group, I will perform all acts necessary to permit and assist Silicon Labs in documenting, perfecting, obtaining, maintaining, defending, and enforcing Intellectual Property Rights and/or my assignment with respect to such Inventions in any and all countries. This includes executing documents and cooperating in legal proceedings. I agree that such actions will be without compensation, but at Silicon Labs' expense. I irrevocably designate and appoint Silicon Labs and its duly authorized officers and agents, as my agents and attorneys-in-fact to act for and on my behalf and instead of me, to execute and file any documents and to do all other lawfully permitted acts to further the above purposes with the same legal force and effect as if executed by me.

2.5 Any assignment of copyright hereunder includes all rights of paternity, integrity, disclosure, and withdrawal, and any other rights that may be known as or referred to as "**Moral Rights.**" If Moral Rights cannot be assigned under applicable law and the following is allowed by the laws in the various countries where Moral Rights exist, I waive such Moral Rights and consent to any action of Silicon Labs that would violate such Moral Rights in the absence of such consent. I will confirm any such waivers and consents from time to time as requested by Silicon Labs.

2.6 Notwithstanding the provisions of Section 19(4) of the Copyright Act, 1957, all the assignment under this Agreement in so far as it relates to copyrightable material shall not lapse nor the rights transferred therein revert to me, even if Silicon Labs does not exercise the rights under the assignment within a period of one year from the date of assignment. I waive any right to and shall not raise any objection or claims to the Copyright Board with respect to the assignment, pursuant to Section 19A of the Copyright Act, 1957.

2.7 I will not create any Inventions that are unoriginal or defame the Silicon Labs Group, its employees, officers, directors, consultants, agents, or any third party or constitute a violation of the rights of privacy of Silicon Labs' other employees or any third party.

2.8 I will keep complete, accurate, and authentic information and records on all Inventions. Such information and records, including copies, will be Silicon Labs' property and are considered Proprietary Information and therefore subject to Article 1. I will promptly surrender all such original and electronic or printed copies of such information and records when requested or within 24 hours from the end of my internship.

2.9 I acknowledge and agree that nothing in this Agreement grants me, by implication, estoppel or otherwise: (a) a license to any rights in a Silicon Labs Invention or any Ownership Rights therein or (b) a license regarding and of Silicon Labs' existing or future Ownership Rights. If I desire to identify and state specifically that certain prior inventions are not subject to this Agreement (collectively, "**Retained Inventions**"), I will complete the Retained Inventions Statement attached as Schedule A to this Agreement. If I incorporate or help incorporate any Retained Inventions into an Invention, product or service, or rely upon any Retained Invention in discovering, developing, creating, conceiving, or reducing to practice any Invention, product or service, I hereby grant to the Company a nonexclusive, paid-up, assignable, irrevocable, perpetual, worldwide, royalty-free license that can be sub-licensed (through one or multiple tiers), to all Intellectual Property Rights in such Retained Inventions.

2.10 **CONSENT TO PHOTOGRAPHY AND OTHER RECORDINGS.** I agree that my name, voice, picture and likeness may be used in Silicon Labs' advertising, training aids, and other materials that relate to the business of Silicon Labs without payment of separate compensation to me. I will not issue or release any articles, advertising, publicity, or other matter relating to Silicon Labs, or provide any information regarding Silicon Labs to any other person intending to do so, without Silicon Labs' specific written consent.

### 3. CHOICE OF LAW

3.1 I agree and consent to service by mail of any paper initiating any suit, action, or proceeding at the address set forth on my pay statement. I will update my address with Silicon Labs whenever a change in address occurs. I waive any objection to service by mail where Silicon Labs addresses service to the most recent address provided by me.

3.2 I agree that the laws of India shall apply to any suit, action, or other legal proceeding arising out of or relating to this Agreement, regardless of any contrary common law or statutory provisions related to conflicts of laws. The courts at Hyderabad shall have exclusive jurisdiction over all disputes or claims between the Parties under this Agreement.

4. **ASSIGNMENT.** I will not assign my rights or delegate any duties or obligations under this Agreement. The Agreement will be binding upon my heirs, executors, administrators, and other legal representatives. The rights and obligations of Silicon Labs under this Agreement shall inure to the benefit of and be binding upon the successors and assigns of Silicon Labs and Silicon Labs may freely assign its rights hereunder.

5. **SEVERABILITY.** If any provision of this Agreement is held to be unenforceable, such provision will be distinct and severable from the other provisions of this Agreement, and such unenforceability will not affect the validity and enforceability of the remaining provisions. If a court holds that the Agreed Period, scope, or any other restriction stated in any provision of this Agreement is unreasonable under circumstances then existing, the parties agree that the maximum duration, scope, or other restriction that the court deems reasonable under such circumstances will be substituted and that the court will have the power to revise any of those restrictions to cover the maximum period, scope, and/or other restriction permitted by law. It is the intent of the parties that the court, in establishing any such substitute restriction, recognize that the parties' desire is that the stated restrictions upon which the parties have agreed be honored to the maximum lawful extent.

### 6. MISCELLANEOUS

6.1 The waiver by Silicon Labs of any provision of this Agreement, or the waiver by Silicon Labs of a breach of any provision of this Agreement by me, shall not operate or be construed as a further or continuing waiver of any subsequent breach by me.

6.2 This Agreement constitutes the sole and entire agreement between the parties relating to its subject matter, and it supersedes and cancels all previous written or verbal agreements or understandings between the parties except that this Agreement shall not be deemed to supersede or cancel any obligations of me under any deferred compensation or stock option award plan to which I may be a party.

6.3 I have carefully read and fully understand all provisions of this Agreement and am knowingly and voluntarily entering into this Agreement. I understand and agree that certain provisions of this Agreement, including Articles 1, 1.3, 2.10, 3, 5 and 6, survive termination of my internship with Silicon Labs for any reason and represent continuing obligations of me to Silicon Labs.

IN WITNESS WHEREOF, I have executed this Agreement on the date set forth below.
