TRIVIA HOUR!

30 sept 2010

Aishwarya is a trained product & service Designer at education and a practicing User Experience and Service Designer at Google.

Coming from a Product design team background, she realized that products cannot exist in isolation and got excited to learn about the complex systems in which these products exist, and how multiple interdependencies within these systems impact the function and usage of a product.

To learn the bulk of this broad and exciting topic, she pursued her Masters in Service Design at University of Dundee, Scotland. At Google, she engages herself in helping Product teams coming from engineering, marketing, product, operations, and the likes with Design Thinking methodology.

CLIMATE-RESPONSIVE DESIGN

By Kanishk Jain

Kanishk is a practicing architect with a specialization in climate-responsive design. He holds a B Arch from TVB School of Habitat Studies, Coim, and an M Sc in Climate Responsive Design from the Technical University of Munich (TUM), Germany.

For over 8 years he worked with architect Rohan B. Lal, a pioneer in the field of sustainable design in India, where he was involved with the design and management of most and smartly efficient housing solutions in India. Currently, he is living in Munich, working at Reischböck Architekten, and learning about state of the art building technologies. His philosophy is to work towards a practical, low-carbon building future that is also socially inclusive.

REPORT

Poetry Recitation Competition

(11 March 2021)

Poetry is a literature that evokes a concentrated imaginative awareness of experience or a specific emotional response through language chosen and arranged for its meaning, sound, and rhythm.

The Competition was inaugurated by the director of School of Management, motivating students to indulge in such events more often.
