**FUELL
DREAM
FOR THE FUTURE**

ING MS

Be it an emphasis on collaborative learning, interaction with experts, professional skills, or relevant curriculum, every aspect of the academic programme at CMR University's School of Economics & Commerce (SOEC) is adequately addressed.

Through our high quality academic programmes, we groom students with the aim to make them industry-ready professionals armed with hands-on knowledge in their selected field of specialization. Strong tie-ups with our globally known knowledge partners and CMR group's legacy in the field of education complements this unique learning journey at CMR University.

CMR Group aspires to be renowned for its delivery of quality education through its institutions of learning. The group, is guided by the belief that every person can achieve his or her dream if given a chance at a well-rounded education, and hence strives to inculcate the right values, scientific temperament, and social commitment in its students; preparing them to become trained professionals, inspired individuals, and genuine partners of progress.

ABOUT CMR GROUP OF INSTITUTIONS

The CMR Group is a unique educational conglomerate consisting of K-12 schools, Pre-University Colleges, a number of institutions of Higher Education, various Centres of Excellence in Research and Development, and a Private University. These educational institutions are located at eleven different campuses across the city of Bengaluru, India. The Group caters to over 20,000 students from 60+ countries. Academic programmes are varied and cover more than 50 areas of study including engineering, architecture, commerce, economics, education, law, management, business administration, and psychology at the undergraduate, postgraduate, and doctoral levels.

VISION

CMR aspires to be renowned for its delivery of quality education through its institutions of learning. We are guided by the belief that every person can achieve his or her dream if given a chance at a well-rounded education, and hence strive to inculcate the right values, scientific temperament, and social commitment in our students, preparing them as trained professionals, inspired individuals, and genuine partners of progress.

MISSION

Committed to creating, building and providing value-added educational services through teaching, training, research, consultancy, and entrepreneurship within and beyond the curriculum through quality infrastructure, material and human resources to attain intellectual heights.

CMR University is promoted by the CMR Jnanadhara Trust and is established as a Private University in Karnataka State by Act number 45 of 2013. CMR University is a New Age University that encourages creativity and cross-disciplinary learning through its unique 'Education Engagement Model'. With an industry-designed curriculum of study, the focus is on flexible, experiential, and integrated learning, involving a blend of intensive academic interventions such as group discussions, case studies, participatory classroom approach, choice of electives, and more. We believe in creating knowledge partnerships with the industry to plug the industry-academia gap and impart the latest skillsets to students.

Vision

To Nurture Creative Thinkers who will drive positive Global Change.

Mission

- To offer multi, inter and cross-disciplinary modular programmes with technology-enabled teaching-learning processes.
- To focus on research-led teaching and learning in an innovative and interdisciplinary learning environment; to create critical thinkers.
- To create leaders for knowledge based economy, with ethical demands of a society base.
- To engage talented intellectual capital with diverse faculty strong in knowledge and experience.
- To ensure transformation of learning into positive behavior of students.

OUR METHODOLOGY

CREATIVITY, COLLABORATIVE LEARNING AND DIVERSITY

EMPHASIS ON CREATIVITY AND INNOVATION

An old Chinese proverb states “I listen, I forget. I see, I remember. I do, I understand.” Along the same lines, the University curriculum gives importance to ‘learning by doing’ through hands-on, activity-based exercises. Creativity, Design Thinking and Innovation modules are an integral part of the majority of academic programmes offered at CMRU. Faculty members are also trained in Design Thinking, and they apply these tools in planning classroom sessions and student activities.

STUDENT CENTRIC APPROACH

At CMR University, students learn creative concepts and Design Thinking regardless of their area of study. CMRU has adopted Choice Based Credit System and uses Outcome Based Education model in curriculum design and teaching-learning process. Project based approach is used in many of the courses to make the courses more interesting to the students. From first semester onwards, students receive multiple opportunities to solve real world challenges and begin building the skills needed to execute innovative mini and capstone projects.

FOCUS ON COLLABORATIVE LEARNING

We believe that the process of sharing ideas, knowledge and experience is the key. Collaborative learning allows students to engage in positive ways leading to the development of their organisational skills, their teamwork ability and the art of giving and receiving feedback.

At CMRU, a unique component of student assessment criteria is the Continuous and Comprehensive Evaluation (CCE). The CCE measures students’ abilities through their contribution to various activities, team projects and case studies. These modules are structured in ways that make peer learning an integral part of every course. Each student is an active participant in the learning process and the role of a faculty is that of a facilitator. Instruction is designed to engage students in learning experiences that enable them to not only learn concepts, but also to develop greater insights towards practical application.

DIVERSE STUDENT BODY

The student body at CMR University is culturally diverse and unique. Our students hail from across India and more than 60 countries worldwide. With such a wide-ranging representation of culture, people and places, the University campus is an ethnically diverse microcosm in the city of Bengaluru. In this environment, it is easy for students to develop an appreciation and respect for cultural differences, and become aware of the assumptions and behaviours that influence interactions.

**Dr. Sabitha Ramamurthy,
Chancellor**

CMR University, staying true to its vision “to nurture creative thinkers who will drive positive global change”, has found a way to make its academic programmes more relevant to the industry and society.

The CMR Group of Institutions was started as a tribute to the Late Sri Chikka Muniyappa Reddy, a visionary educationist and philanthropist who dreamt of bringing literacy to the masses. His vision led to the founding of the CMR Jnanadhara Trust, and through it the growth of the CMR Group of Institutions. In its 25 years of existence, the CMR Jnanadhara Trust has been guided by the belief that every person can achieve his or her dreams if given a chance at a well-rounded education. CMR University, with its multiple disciplinary programmes, is strategically located in Bengaluru, a major emerging destination for Higher Education.

The programmes offered at CMR University are embedded in a mature and highly sophisticated research culture, enabling students to grow in an open and free academic environment with dedicated teaching, state-of-the-art laboratories, fast information networks and well-stocked libraries.

The University’s new integrated main campus is under development, and is located close to the Bengaluru International Airport. This technology-enabled campus has been designed to enable collaboration and facilitate improved interactions amongst the student and faculty community. The University houses an innovation hub and several design thinking labs where students can explore, discover and create; thus setting themselves up for success as innovative and independent thinkers, not mere content memorizers.

MESSAGE FROM THE CHANCELLOR

Dr. R Sugant
Dean

The industry has been going through seismic changes in the past decade. Some of the most iconic companies like GE, General Motors, and AT&T have fallen from their pedestal and have been removed from the venerable Dow Jones index. Come 2020, Covid changed the world forever. Nowhere is the change as evident as in business and commerce.

While legacy companies struggled to make the leap during the pandemic, smart organisations adapted to the new normal swiftly. For example, the Indian IT industry not only transformed overnight into the work-from-home model, but also was able to retain employee motivation and increase productivity. In this period, nimble start-ups literally leapfrogged the valuation sweepstakes. In fact, 2020 was the best year for start-ups in India, with 11 start-ups earning \$1Bn-plus valuation, the highest ever for unicorn creation in India.

The 'finance' domain has been undergoing rapid changes - Digital transformation, fintech, remote accounting, blockchain, ESG(Environmental, Social & Governance)

reporting etc. are fast becoming mainstream. The UG and PG programmes of School of Economics and Commerce of CMR University helps one navigate and succeed in the contemporary world of finance and accounting. Apart from the highly rigorous academic curriculum, CMRU also provides a platform for students to get certified by leading global finance and accounting institutions like Association of Chartered Certified Accountants (ACCA), UK and Institute of Management Accountants, USA.

Managers and business leaders of tomorrow cannot succeed by managing individual functions. The managers of tomorrow need to be nimble, highly creative, should possess cross functional skills, have the flair to manage technology and at the same time be sensitive to the community needs. CMR University has incorporated all these elements into its curriculum.

Courses on design thinking, ethics, community internship programmes juxtaposed with exposure to multi-disciplinary areas are de-rigueur at the University. CMRU – School of Economics and Commerce is a place where you can give wings to your dreams and metamorphose from a student to a complete professional.

We invite you on this journey of success at CMR University – School of Economics and Commerce!

MESSAGE FROM THE DEAN

CMR UNIVERSITY

Ph.D. | Economics Ph.D. | Commerce

PROGRAMME OVERVIEW

The Ph.D. programme at CMR University, seeks to inculcate in each research scholar, the skills essential to become not only a qualified researcher, but also to excel in their chosen areas of research.

At CMRU the emphasis has always been to elevate the quality of the research in order to contribute to the growing pool of knowledge in each discipline.

We have ardently endeavored to groom Scholars into committed academicians and scientists who are capable of conducting good, independent research in a responsible and ethical manner. We work hard to balance 'academic rigor' and 'practical relevance' in our research. Our focus has always been on a cross-disciplinary knowledge flow. Our scholars are encouraged to attain globally accepted standards in their research.

The rigorous course-work, facilitated by eminent academicians, prepares our scholars for research from the beginning itself. The programme is uniquely oriented towards application of both theory and knowledge as derived from Research.

All of our Schools of Studies are equipped with state of the art laboratories and research facilities to handle high-end result oriented research.

CMR University offers a unique environment for all research Scholars. Distinguished faculties who have strong industry and academic background with years of experience in research are available to guide students.

Scholars in the programme will find themselves learning alongside a talented, vibrant and diverse peer group. The University offers both full time and part-time Doctoral programmes (Ph.D.).

Assessment and Evaluation

The University follows Choice Based Credit System (CBCS), which provides opportunities for students to select from the prescribed set of courses and earn credits. Students are awarded grades based on their performance for each course in a semester and Semester Grade Point Average (SGPA), which is a measure of academic performance of a student in a semester. Cumulative Grade Point Average (CGPA) is used as a measure of the completed cumulative performance of a student over all semesters. However, the CGPA is invariably calculated from second semester onwards to facilitate students to know their academic progress.

Every programme has a prescribed Curriculum or the Scheme of Teaching and Evaluation. It prescribes all the courses/ laboratory/ other requirements for the degree and sets out the nominal sequence semester wise. Curriculum also includes SWAYAM and Massive Open Online Courses (MOOCs), offered by premier institutions. A student desirous of additional exposure to a course, without the rigors of obtaining a good grade, 'audits' a course that helps him to have an edge over others in placements.

The evaluation system to assess the student is comprehensive and continuous during the entire period of the semester, by the faculty who is teaching the course. Continuous Internal Evaluation (CIE) and semester End Examination (SEE) constitute the major evaluations prescribed for each course, with only

those students maintaining a minimum standard in CIE permitted to appear in SEE of the course. CIE and SEE carry 50% weightage each, to enable the course to be evaluated for a total of 100 marks, irrespective of its credits.

Before the start of the Academic session of each semester, a faculty may choose for his course Internal Assessment Test and a minimum of two of the following assessment methods with suitable weightage for each: Assignments (Individual and/ or Group), Seminars, Quizzes, Group Discussions, Case studies/Case lets, Practical orientation on Design Thinking, Creativity & Innovation, Participatory & Industry-integrated learning, Practical activities / problem solving exercises, Class presentations, Analysis of Industry/Technical/Business Reports, Reports on Guest Lectures / Webinars / Industrial Visits, Industrial / Social / Rural projects, Participation in Seminars/ Academic Events/Symposia, etc. or any other academic activity.

The Semester End Examination for all the courses for which students registered during the semester are conducted at the end of each semester. Some of the courses, where the student performance is assessed continuously by different assessment methods, may not have SEE.

The makeup examination facility is available to those students who have appeared and failed in the SEE in one or more courses in a semester, and also those who could not appear for SEE due to exigencies.
